GEO. DEWALD & CO.

DRESS GOODS.

We are giving the best values in the city. We were told so by many ladies, who would not hesitate to tell us the reverse if they thought so. Our dress goods were bought just at the right time, and this is the reason we can sell a broadcloth for 98 cents which is worth the town over $1.25,

DR. GREEN.

He is Acquitted of a Serious Charge at South Bend.

Some days ago THE SENTINEL noted the arrest of Charley Green, of this city, at South Bend, on a charge of receiving stolen property.

Dr. Green, for he is familiarly known that way, was imposed on by some fellow and the officers happened to catch him with another man's property in his keeping.

He had a trial to-day and a telegram from Mr. S. L. Morris, his attorney, announces his complete acquittal. People who know Green never doubted his honesty in this matter and it will please them to hear of his vindication.

Capt. Hugh M. Diehl, Mr. J. W. Hayden and Mr. Morris attended the trial.

The Weather.

WASHINGTON, Oct. 12.—Indiana.—Local rains, storms Friday; fair Saturday; cooler, easterly winds, shifting westerly; brisk to high winds on lake.

The Church on Prohibition.

At the forty-fourth annual session of the St. Joseph conference of the United Brethern church held at Ligonier August 29 to September 2, the following resolutions were passed:

Resolved, 1. As a conference we are unconditionally opposed to the manufacture, use, and sale of all intoxicants as a beverage.

2. That we will do all in our power to secure constitutional prophibition, and will not cease to labor, pray, and vote until this is accomplished.

The recent cyclones in the south and west have done terrible damage to life and property, but there's one comfort left—the people clamor for Dr. Bull's Cough Syrup.

Notice to Taxpayers.

The regular time for paying the last installment of county taxes expires Monday, Nov. 5, and after that date the law imposes a penalty on all delinquencies.

ISAAC MOWREE,
County Treasurer.

Why is it that the "Massachusetts" is the leading shoe store? Because their prices are lower; because they are a one price store; because the goods are always found just as represented; because their stock is the largest; because everybody trades there.

UNDER GUARD OF POLICE!

The Chicago Street Cars Make Their Run—The Deadly Dynamiter at Work.

CHICAGO, 11 a. m., Oct. 12.—At 10 o'clock three cars were run out of the barns at Western avenue under the protection of the police and have reached the business centre of the city without trouble. The north side cars made their trips this morning without serious interference. Captain Schaak, of the north side police, discovered this morning that the dynamite, which Jules Kalesberger was caught placing on the street car tracks on Sedgwick street yesterday, is the most violent explosive ever found by the police here.

Yesterday afternoon stones were thrown at the street cars as they passed and at Halstead street one of the drivers was attacked, thrown to the ground and pounded by several of the crowd. In the evening three large railroad torpedoes were placed on the track, and their explosion caused intense excitement.

Chief of Police Hubbard says that a more careful investigation of the supposed dynamits bombs shows that they contain plaster of paris instead of an explosive and they are consequently harmless.

LATER.

The chief of police now says they were dynamite bombs of a very dangerous character.

HEAD BLOWN OFF,

And the Body Partially Eaten by Hogs—The Terrible Fate of a Farmer.

WARSAW, Ind., Oct. 12.—J. W. Makemson, a farmer living near here, left home last Tuesday morning on a short hunting expedition, and expected to return home the same evening. Tuesday night passed, also Wednesday and Wednesday night.

His wife, nearly frantic, started some neighbors to search for him. They were rewarded by finding his dead body in the woods, with his head entirely blown off, and the body shockingly mutilated by hogs. It is supposed he had blown in the barrel of his gun, and the load in the other barrel was discharged. He leaves a large family.

Congress.

WASHINGTON, Oct. 12.—Rice, of Minnesota, called up the report of the special committee investigating the charges of misconduct on the part of Mr. Stahlneckee, of New York, in connection with the new library building. A report which completely exonerated Mr. Stahlnecker was adopted.

Mr. Lannam, of Texas, moved that when the house adjourned to-day it be to meet Monday next. Agreed to.

The house then went into a committee of the whole on the private calendar.

Crackers Go Up.

CHICAGO, Oct. 12.—At a meeting of all the cracker bakers between Pittsburg and the Rocky mountains, held this morning, it was unanimously agreed to advance the price of crackers. The advance covers the entire price list and ranges from 1 to 1½c. per pound on the various kinds manufactured. The price goes into effect to-morrow.

Letters Robbed.

BUFFALO, Oct. 12.—Over a bushel of partly destroyed letters, addressed to business firms of this city, were found on the street this morning. They had been rifled of all the contents that could be turned into money. The perpetrator has been arrested. He proved to be the night clerk in the postoffice, named John Shields. He was appointed September 18, under the civil service law.

Working for Harmony.

NEW YORK, Oct. 12.—Sheriff Grant has announced that he will withdraw as the Tammany hall candidate for mayor of New York if Mr. Hewitt will.

Coffee Goes Up.

NEW YORK, Oct. 12.—The coffee market, which has been comparatively active lately, to-day advanced over a half cent on all grades.

Yellow Fever.

DECATUR, Ala., Oct. 12.—There has been three new cases of yellow fever in the last twenty-four hours.

The Railroad Horror.

WILKESBARRE, Oct. 12.—No new developments in the Lehigh valley railroad accident to-day.

THE MARKETS.

CHICAGO, Oct. 12.—Close—Wheat, about steady, at $1.14. Corn, about steady, at 45½c. Oats, steady, at 24½c. Flaxseed, $1.42. Pork, steady, $15. Lard, steady, at $9.10. October short ribs, $8.50.

CLEVELAND AND HARRISON.

What the Two Candidates Think of the Young Men's Christian Association.

BUFFALO, N. Y., Oct. 12.—President William H. Gratwick, of the Young Men's Christian Association, recently wrote to the two candidates for president asking their views regarding the work of the society, with special reference to the thirty-sixth anniversary of the Buffalo branch. President Cleveland wrote:

DEAR SIR:—I gladly comply with your request and tender the expression of my appreciation of the benificent mission of the Y. M. C. A. so rapidly multiplying throughout our land. We are a busy nation. The impetuous rush and enterprise of our people to a casual observer would seem to yield no place to the consideration and fostering of the influences which radiate from these institutions. But to those who know how well our daily life is grounded upon Christian principles, it is a matter of no surprise that Young Men's Christian Associations challenge our attention and care. It seems to me that nothing is more essential to our continued welfare and prosperity as a people than the preservation of our faith in the usefulness of such organizations. Yours, very truly. GROVER CLEVELAND.

Mr. Harrison's letter is as follows:

MY DEAR SIR:—Your letter of September 8, has been received, and I think I should adhere to my former determination. If there were any occasion for an expression upon the subject, it would be cheerfully and heartily given; but to make an occasion does not seem to me to be appropriate. The organization is too well known to need any such such support or advertisement. Such a letter would appear to be rather in aid of myself than of the organization, and I have too much respect for it to seem to use it in that way. Very truly yours.

BENJAMIN HARRISON.

The former determination, Mr. Gratwick says, was that Mr. Harrison was sensitive about writing anything that might be construed as being political.

Worse Than First Reported.

QUINCY, Ill., Oct. 12.—The casualties from the falling of the amphitheater at the fireworks display in this city, are more numerous than at first reported, but so far none have proved fatal. Reports are still being received of injuries. In the excitement following the crash many of those hurt were carried away. Many names have not yet been reported. About 300 were more or less injured.

Accident at a Pole Raising.

RUSHVILLE, Oct. 12.—Yesterday, while the Hon. Jesse M. Wilson, of Washington City, was addressing a republican meeting at Andersonville, this county, at a pole raising, the pole fell, striking a man from Newton, O., named Jasper Shotwell, inflicting injuries which will possibly prove fatal. At the same time a small cannon exploded, fatally injuring Martin Lewis. Both will probably die.

A Young Man Suicides.

HAMILTON, Ohio., Oct. 12.—A young man named John Donges, jr., committed suicide by shooting himself three times with a revolver. The bullets took effect in his head, killing him instantly. He was the son of John Donges, of the firm of John Donges & Co., prominent manufacturers. The young man was twenty-six years of age and lived with his parents.

Honors to Governor Hill.

PERU, Ind., Oct. 12.—The Hendricks league of this city, 300 strong, will go to Lafayette Saturday morning, the 13th inst., by a special train to meet Governor Hill, and will act as his special escort from Lafayette to Logansport in the evening, where a grand demonstration is expected.

Got $1,500.

WABASH, Ind., Oct. 12.—Fifty pickpockets worked the crowd at the Blaine demonstration in Goshen, and secured about $1,500.

Mr. J. W. Makemson, a farmer living near Warsaw, whose accidental death is recorded in our telegraph column, is a relative of Mr. T. J. Logan, the court stenographer of this city.

Mr. P. H. Linneen, of Lockport, the water works pump salesman, is in the city to negotiate the sale of an engine to the council. Mr. Linneen is western agent for the Holly company.

The following persons took out their second naturalization papers to-day: Lewis Kroppe, John Eifel, Ferdinand Kruse, Wm. Deister, Joseph Heinemann, August Giese, and George Yagle.

E. S. Swigert, Bluffton; J. D. Farrall, LaGrange; W. W. Eaton, Cadillac; W. E. Denman and R. Gates Rice, New York; Henry Eder, Chicago; and H. J. Hoferkamp, Cincinnati, are guests of the Aveline.

FLOOD DEAD.

The Bonanza King Expires at Heidelberg After Long Suffering From Bright's Disease.

SAN FRANCISCO, Oct. 12.—Millionaire James C. Flood died at Heidelburg yesterday. He never rallied from the attack that seized him on Tuesday, and from which he was reported to be dying Wednesday.

The "Bonanza King" suffered from Bright's disease, and had two relapses since the big wheat deal of 1886, when, with Mackay, he lost $10,000,000 in an attempt to bull the cereal. He sought to restore his health by traveling to Carlsbad with his wife.

LOCAL NEWS.

Sheriff Viberg arrived home from Indianapolis this morning.

Hon. Will H. Shambaugh was at Huntington this morning.

Mr. Harry Metzgar, the pleasant clerk of Judge O'Rourke court, is quite ill.

A residence at La Otto burned yesterday, so the incoming train men tell us.

Editor Will R. Emery, of the Huntington *Democrat*, was a pleasant caller yesterday.

Margaret F. Eyanson et al. sue T. P. Anderson to quiet title to real estate. H. C. Hanna is attorney in the case.

The financial secretary will call upon the members of the Business Men's exchange for their monthly dues to-morrow.

Geo. Miller sues Josephine Federspield et al. to quiet title to real estate. Spencer & Jenkinson filed the complaint.

C. F. Nicholas, and W. T. Davis and wife, New York; W. G. Holloway, Worcester; A. H. Mussey are guests of the Wayne.

Mr. L. P. Huntoon is at home from Cleveland, where he looked at the new county map now nearing completion. He pronounces it perfect.

Hon. Wm. F. McNagny, of Columbia City, is a guest of the Wayne hotel. He speaks at Leo to-night and is doing great work for the democratic cause.

Col. C. C. Matson, Hon. John R. East and Mr. Jean Adkins were guests of the Wayne hotel this morning, en route to Huntington, where they address a democratic meeting to-night. The weather is not favorable to them.

Last summer, Will Peltier, while camping out at Rome City, had a costly shot-gun stolen from his tent. The other day he discovered the shot-gun in the possession of a Rome City lad and made him give it up. There will be no prosecutions.

Rev. Dr. Israel Aaron, formerly pastor of the Aeduth Veshalom congregation, of this city but now of Beth Zion congregation, Buffalo, N. N., will occupy the pulpit from which he preached for more than four years, to-morrow. Services commence at 10 o'clock. The public is invited.

The latest telegraph company reported as coming to the relief of Fort Wayne sufferers is the Edison Mutual, which has its wire along the Cincinnati, Van Wert and Western road and general office at Van Wert, Ohio. Jay Gould has not likely heard of this line or he would gather it in his monopolistic embrace.

The Indianapolis *Journal* says: "Hon. I. D. G. Nelson, who went north a fortnight ago, is expected home to-morrow, with his wife and daughter, who have been spending several months at Alma Springs, Mich. Mrs. Nelson is but very little improved in health. They will reside at No. 194 East Michigan street."

The thirty-fourth annual convention of the Lutheran synod of northern Indiana met at the Lutheran church, in North Manchester, Tuesday last. Rev. D. F. Kain, of Albion, president of the synod, preached the opening sermon. The sessions will continue until next Monday. The Woman's Home and Foreign Missionary society of the synod will also hold its session.

The Philadelphia *Record* devotes two columns to extracts from Hon. Hugh McCulloch's forthcoming book, embodying portions of the article recently published in THE SENTINEL, and adds editorially: "The declaration of Hon. Hugh McCulloch, secretary of the treasury under Presidents Lincoln, Johnson and Arthur, that he will cast his vote for Cleveland and Thurman will not fail to make a strong impresssion upon the people of the country. Mr. McCulloch has always been a steady opponent of the democratic party. He was a whig before he was a republican. But he holds fast to the republican tariff policy enunciated by the republican administrations of which he was a part and can not swallow the doctrine of "Protection for the sake of protection" now made an article of party faith. Mr. McCulloch believes in the tariff policy advocated by Sumner, Chase, Wilson, Garfield, Fessenden, and other great contemporaries of his own in the better days of his party, and he has given such reasons for his faith as must commend them to the consideration of all his fellow-citizens. We particularly invite the attention of our republican readers to the words of a man whom President Lincoln deemed worthy to wear the mantle of Chase, and whom he intrusted with the management of our fiscal affairs in a period of the utmost difficulty."

TRIUMPHANT DEMOCRACY.

The Rally Last Night is Recorded a Great Success—The Banner Presentation.

The joint demonstration of the Sixth and Seventh wards and Wayne township democracy last night was a magnficent affair.

The parade was one of the largest of the season and certainly the handsomest. The railroad men were 150 strong with their colored lanterns. The Thurman club, regaled in red bandana ulsters, made its bow, while the Hendricks legion and first voters won new laurels.

All along the line of march houses were brightly illuminated, and every where the clubs received an ovation. Their approach to the Hamilton field was lighted up by a monster bonfire, while sky rockets and Roman candles sent their fire high into the heavens, making the scene exceedingly picturesque.

The attendance was beyond all expectation, and the enthusiasm unbounded. Hon. J. M. Barrett and Mr. Henry Colerick spoke from one stand, and Hon. Robert Lowry and Hon. O. L. Ballou from another. They were eagerly listened to and made master speeches, reviewing the issues of the day with such ability as to win the warmest applause.

The rain prevented a speech by Mr. Anselm Fuelber, and the meeting was an hour shorter than anticipated.

The affair was presided over by Hon. C. F. Muhler, and was admirably handled by its promoters.

The Democratic railroad club, headed by the Union Cornet band, last evening, marched to the residence of Hon. P. S. O'Rourke, on McClellan street, where they were presented with a handsome silk banner by his daughter, Miss Lida O'Rourke. In making the presentation, she addressed them as follows:

"Gentlemen of the Cleveland and Thurman club: You will please accept this silk banner as a token of friendship in the great and noble cause you are battling for. Yea, go forth and unfurl this beautiful banner to the breeze in defence of Cleveland and Thurman, and on the 6th of November there will be no doubt but that Cleveland, Thurman and reform will be vindicated by the great masses of the American people."

Capt. Martin Minch, of the railroad club, responded in a few well chosen words, after which Hon. P. S. O'Rourke was called for and addressed the club in a short but forcible and happy manner, followed by Mr. Charley Sloat in a few words of good cheer for the railroad boys.

Mr. O'Rourke's residence was beautifully illuminated with Chinese and railroad lanterns and the front was covered with bandana handkerchiefs and large pictures of Cleveland and Thurman. The scene was a pretty one and its brilliancy was increased by the illuminations that hung from a number of residences along Douglass avenue.

OUR BOYS ABROAD.

The Fort Wayne Delegation Honored at Indianapolis.

Indianapolis Journal.

The Tippecanoe club, of Fort Wayne, came in about 1:30 on a special train via the Lake Erie and Western. They numbered eighty-two all told, and were captained by Ed. White, son of the republican congressman from the Twelfth district. They were handsomely uniformed in white duck leggins, light overcoats of uniform color, and silk tiles, and were headed by the celebrated Fort Wayne City band. The procession had already commenced moving when they arrived, but they were given the post of honor at the head of the second division when the line of march was reached, and their appearance everywhere was greeted with marked expressions of commendation. The Fort Wayne crowd altogether numbered nearly 500 people. They returned at 11 o'clock last night. During the evening the club, led by the Tippecanoe club band, of Fort Wayne, serenaded the *Journal* office. The visitors were introduced by Mr. Leonard, of the Fort Wayne *Gazette*."

The Indianapolis *Sentinel* adds:

The procession moved on. It soon became very evident that the republicans had made the parade a state affair. All the towns of any importance within 150 miles were represented. Fort Wayne's delegation was probably complimented more than any other club in the procession. The members numbered nearly a hundred. They wore drab overcoats, light colored leggings, silk hats, and carried hickory canes in the position of "carry arms."

A STEAMER SINKS!

On the Ohio River, With Fifty Head of Cattle and Four Horses. The Crew Escape.

EVANSVILLE, Ind., Oct. 12.—Last night the Robert B. Carson, a cattle steamer, sank four miles below here in thirty feet of water. Fifty head of cattle, four horses and some freight were lost. The crew escaped. Loss, $10,000.

A REPUBLICAN SCHEME.

An Effort Made to Influence the Knights of Labor.

The republicans are attempting a very cute scheme on the workingmen. A republican Knight of Labor will come from another state and attend the assembly meeting as a visitor. He will precipitate a political discussion and then, abusing the customary privileges accorded a visiting member, will come forward and deliver a set eulogium upon Ben. Harrison and heap calumny upon the democracy. One J. D. Harris of some place in Ohio has just entered this state to work the game. About a dozen other Buckeye specimens of this type are on their way. Local knights have received official notice of their coming. They are expected at the first meeting of the assemblies. Of course they will fall flat when they discover that their intentions are anticipated.

Protection to Health.

The state and national governments are preparing to enact stringent laws for the protection of the people's health, and this the more especially in the matter of adulterations whereby the food of the public is contaminated with cheap and filthy substances at the instance of unscrupulous money-seekers who thus rob the people of both their health and their means. One of the most common yet vilest adulterants is ammonia, a noxious drug. The original source or supply of ammonia was camel's dung. This foul substance is found in the refuse of men and animals. It is this that produces the pungent and sickening odors in urinals and neglected stables. It is corrosive poison in its concentrated form. The effect of this drug seems to be cumulative, and when taken into the stomach in small doses repeatedly it is easy to conceive that its action must be irritating to the coating of the stomach, and to the kidneys, thereby causing much wretchedness. Ammonia is used in the manufacture of baking powder largely advertised as being "Absolutely Pure," and probably more than one-half the cans of baking powder on most grocers's shelves contain this vile and dangerous drug. Baking powders containing ammonia, alum, and other foul substances are calculated by their very nature to injure the health of men, women, and children. It is important for housewives to know that Dr. Price's Cream Baking Powder is free from ammonia, alum, lime, and all adulterations whatsoever; also that it is healthful and economical; really, the most perfect made.

There will be a prohibition meeting at the circuit court room to-night.

Mr. C. L. Centlivre has been at home several days and looks exceedingly well after his European trip.

Gen. T. H. Nelson, of Terre Haute, is still a guest of the Wayne. He is evangelizing for the republicans.

Mr. Louis Centlivre, the popular young brewer, returned last night from Detroit, where he captured all the honors with his fancy driving team.

A half dozen democratic meetings are booked in the county to-night and the weather is anything but favorable. The life of a campaign orator is not always a happy one.

Martyrs to Headache

Seek relief in vain, until they begin to use Ayer's Sarsaparilla. Then they regret the years of suffering they might have escaped had they tried this remedy earlier. The trouble was constitutional not local; and, until Ayer's Sarsaparilla did its effective work as an Alterative and Blood Purifier, they were compelled to suffer.

The wife of Samuel Page, 21 Austin st., Lowell, Mass., was, for a long time, subject to severe headaches, the result of stomach and liver disorders. A perfect cure has been effected by Ayer's Sarsaparilla.

Frank Roberts, 727 Washington st., Boston, says that he formerly had terrible headaches, and until he took Ayer's Sarsaparilla, never found any medicine that would give

Permanent Relief.

"Every Spring, for years," writes Lizzie W. DeVeau, 262 Fifteenth st., Brooklyn, N. Y., "I have had intolerable headaches. I commenced the use of Ayer's Sarsaparilla last March, and have not had a headache since that time."

"I suffered from headache, indigestion, and debility, and was hardly able to drag myself about the house," writes Mrs. M. M. Lewis, of A st., Lowell, Mass. "Ayer's Sarsaparilla has worked a marvelous change in my case. I now feel strong and well as ever."

Jonas Garman, Esq., of Lykins, Pa., writes: "For years I have suffered dreadfully, every Spring, from headache, caused by impurity of the blood and bilousness. It seemed for days and weeks that my head would split open. Nothing relieved me till I took Ayer's Sarsaparilla. This medicine has cured me completely."

When Mrs. Genevra Belanger, of 24 Bridge st., Springfield, Mass., began to use Ayer's Sarsaparilla, she had suffered for some years from a serious affection of the kidneys. Every Spring, also, she was afflicted with headache, loss of appetite, and indigestion. A friend persuaded her to use Ayer's Sarsaparilla, which benefited her wonderfully. Her health is now perfect. Martyrs to headache should try

DR. GEO. MACDONALD, the preacher and novelist, is a tall man with a finely shaped head, which is crowned with gray hair parted in the middle. His beard and mustache of iron gray are long and silken. He appears to great advantage in the pulpit, for he preaches with earnestness and in a voice of melodious quality, made attractive by an unmistakable Scotch "burr."

RAILROAD men say that lightning occasionally strikes locomotives when they run through thunder storms, but that it has never been known to harm them or the men in their cabs. The electricity thins out and spreads all over the engine, running off the wheels and along the tracks when it leaves the machinery. The impression is that the locomotives are lightning catchers and attract the bolts that otherwise might hit the cars.

MR. GLADSTONE is a great talker, and he who calls on him is a listener, as the grand old man monopolizes the conversation in a grand old manner. This has its compensation, as Mr. Gladstone not infrequently afterward attributes to the caller what he said himself. Mr. Gladstone is said to have sent for a certain young nobleman very fully posted on the Eastern question. The young nobleman went, and next day a friend congratulated him on the impression he had made. "Mr. Gladstone says he never met any one who knew so much about the Caucasus." Lord X. laughed, "I was with him two hours, and never opened my mouth."

ONE day last winter while a Bangor fisherman was cutting through the ice with a big chisel preparatory to a day's sport, the chisel, which had a handle like a shovel, slipped from his grasp and went to the bottom. But he had a hole cut. So he set some lines baited with live shiners, and went to camp. When he tried his lines afterward he decided that he had caught something, a whale perhaps, by the way it pulled. He landed his catch, and found that he had a three-pound trout and a chisel. When the chisel went down it had stuck upright in the mud. The shiner on the hook had swung through the hole in the handle. A trout had seized it and wound the line around the handle, and as the line was strong the result was as narrated.

MRS. SHERIDAN is partly of Cherokee blood. Her father, says the New York *Tribune*, Gen. Rucker, then Lieutenant Rucker, while stationed at Fort Gibson, Cherokee Nation, married a Miss Coody, whose mother was a daughter of a sister of the Cherokee chief, John Ross, who ruled over the nation for a period of forty years. The establishment of this Cherokee right by blood, which is required of all Cherokees who have severed their connection with the nation beyond a year, would entitle Mrs. Sheridan to one-eighteenthousandth undivided share in fourteen million acres of land and a life share in $3,000,000 of funds held in trust by the United States, on which an annual interest of $140,000 is paid to the Cherokees.

SOMEBODY wisely suggests that in making up a party for a traveling excursion it is always to include one ignorant woman, because she will ask all the questions that everybody else will wish to ask but will be ashamed to put into words. As a matter of fact, however, it is the ignorant people who are oftenest ashamed to ask about things they do not understand, and it takes a person of much cleverness and tact to ask questions continually without becoming infinitely tedious.

COUNCIL PROCEEDINGS.

ORDINANCES.

An ordinance granting the Salamonie Mining and Gas company the right and privilege to lay, maintain and operate gas pipes in the City of Fort Wayne for illuminating, heating and power purposes and limiting the price to be charged consumers therefor.

Sec. 1. Be it ordained by the common council of the city of Fort Wayne that subject to the terms, conditions and provisions of this ordinance there is hereby granted to the Salamonie Mining and Gas company, a corporation duly organized and existing under the laws of the state of Indiana, its successors and assigns the right-of-way along, through and under the streets, avenues, lanes, alleys and public places in said city for the purpose of laying, constructing, maintaining, using and operating one or more lines of gas mains, branch pipes with necessary feeders and service pipes, drips and other devices necessary for the successful operation of said lines and pipes in conducting, supplying and delivering natural gas or produced gas to consumers thereof for illuminating, heating and power purpose.

Sec. 2. Before the said Salamonie Mining and Gas company desiring to pipe the city of Fort Wayne for supplying natural gas shall do any work towards laying any mains or pipes in any street, avenue, lane, alley or public ground under the grant thereof, such company shall execute a bond to the city of Fort Wayne, Ind., in the penal sum of $50,000 to the acceptance and approval of the mayor in which one or more sureties shall reside in Allen county, Ind., conditioned as follows;

1st. The said Salamonie Mining and Gas company will not in any manner molest, damage or interfere with any gas or water pipes or public or private sewers now laid or constructed or which may hereafter be laid or constructed, in or along any of the streets, alleys, lanes, avenues or public grounds of said city.

2d. That said Salamonie Mining and Gas company will restore any and all streets, alleys, lanes and avenues or public grounds in which it may lay mains or pipes or which it shall disturb or interfere with in laying pipes or trenchings or excavations for the purpose of laying mains or pipes, or in using any apparatus or machinery in connecting any connection through them, to as good a condition as they were before the laying and use of said mains or pipes, apparatus or machinery, and before said trenching and excavating were begun, and that it will maintain the same in such condition for one year after such mains or pipes are laid, or such trenches or excavations dug or made, and in all cases where said city shall have taken a bond or agreement from any contractor to keep and maintain the pvements in any street in good repair for a given time, the said company shall keep that portion in such street from which it may remove the pavement for the purpose of laying its mains, pipes and conducts in good condition and repair for the same period of time stipulated in such bond or agreement between the city and the contractor.

3d. That said Salamonie Mining and Gas company will, without delay, clear from such streets and place dirt and rubbish caused by or resulting from the laying of said mains of pipes or making such trenches or excavations.

4th. That said Salamonie Mining and Gas company will reimburse the said city from all sums it may expend in restoring any street or other public place, or any part thereof, to as good a condition as the same was before the same was opened for the purpose of laying the mains and pipes thereof and for all sums expended in clearing any such streets or places from dirt or rubbish, caused by or resulting from the laying of said mains or pipes where the said company failed to restore the streets or other places or removed such dirt or rubbish as provided by this ordinance.

5th. That it will indemnify and save harmless the city from and against any and all claims, demands, actions, suits, judgments or liabilities of every kind as the said city may be subjected to or incur in consequence or growing out of the opening of said streets or other places, or the carrying of said mains or pipes therein, or of permitting or having such gas within the city or in such mains or pipes or in said streets or other places, or doing work incident to this grant or the manner of doing the same, or in consequence of injuries or damages to persons or property by said gas or by reason of any explosion of such gas or in consequence of or growing out of the failure of said company to restore the said streets or other places to as good a condition as they were before being opened by it or in consequence of or growing out of any negligence or the agents or servants of said company, it being the intention of the city and said company accepting the provision of this ordinance that said company shall be liable as between them and said city in all such cases.

6th. That the said company in accepting the provisions of this ordinance shall within one year lay not less than twenty-five miles of mains within the corporate limits of said city.

Sec. 3. The mayor may require the renewal of the bond provided for in the last section whenever in his judgment it has become insufficient by reason of the death or insolvency of any of the sureties on said bond.

Sec. 4. All mains or pipes laid under the provisions of this ordinance shall be laid in an alley wherever the same is practicable and no right shall ever be selected, or mains or pipes laid in said city by said company under the provisions of this ordinance until a general plan showing the streets and alleys, avenues, lanes or public grounds to be opened and the proposed location of the mains or pipes on such streets, alleys, avenues, lanes or public grounds, and the highest pressure intended to be carried on said lines with the precaution for safety shall have been furnished to the city civil engineer of said city and the common council and receive their approval which general plan shall be retained by said engineer in his office as a public record.

Sec. 5. Whenever the city of Fort Wayne shall determine to construct any sewer, water pipe or other improvement in, along or across any street, alley, avenue or lane where any main or pipes of said company shall be laid, said company shall at its own expense lower, elevate, change or remove the mains or pipes so that said sewer, water pipe or improvement may be laid at the place determined upon by said city. Notice given by the city civil engineer in writing shall be sufficient.

Sec. 6. All the pavements, sidewalks, crosswalks, curbstones, gutters, streets, alleys, or public grounds in any way displaced, disturbed or injured by said company in laying, altering, repairing or maintaining its mains, pipes, street boxes, valves or other appliances shall immediately be restored, replaced, repaired and put in as good condition as the same were before being disturbed or replaced as aforesaid.

Sec. 7. All work in laying or repairing mains or pipes shall be prosecuted in such a manner as not to interfere with the public use or travel upon the streets, avenues, lanes and alleys of said city where it can be avoided and when such use is unavoidably obstructed by said company said company will, with all reasonable dispatch, repair and replace such streets, avenues, lanes, alleys or public grounds so that the public use will not be obstructed beyond a reasonable time. The work shall be pushed as rapidly as possible to completion and all of the streets, avenues, lanes and alleys or public grounds shall be promptly restored to as good condition as they were in before the work was commenced and shall be kept in such condition by said company for a period of one year any street, alley, avenue, lane or public ground shall be opened under the provisions of this ordinance between December 1st and March 1st, unless the city civil engineer in specific cases shall authorize the same.

Sec. 8. All pipes, mains and apparatus of every kind and description used by said company shall be of the most approved design and quality; all the pipes shall be standard weight and shall be so laid as not to interfere with the use of the streets, alleys, avenues, lanes or public grounds after the same are in place. The mains and service pipes shall also be laid in public streets, alleys, avenues, lanes and public grounds of said city so as to prevent the escape of gas and in such a manner as that the use of gas will be safe; said service pipe shall be laid to the property line without expense to the persons desiring to use the gas.

Sec. 9. If the city civil edgineer shall discover at any time that said company is doing its work in a careless, incompetent or unskilful manner he shall notify the said company prosecuting the work in writing, and if such carelessness, incompetency and unskillfulness is not immediately remedied he shall report the same to the common council, who shall have the power to pass and enforce such ordinance and resolution as shall remedy the defect.

Sec. 10. In order to provide against gas that may escape from high or low pressure mains and pipes from passing into cellars, sewers and buildings it shall be and it is hereby made the duty of said company laying mains or pipes for carrying gas as aforesaid when deemed necessary by the city civil engineer and said common council to provide, furnish and supply a system of escape pipes, to be approved by the city civil engineer and said council sufficient to carry off any and all gas which may leak or escape through defective joints, service pipe connections or defects in mains. Gauges showing the amount of pressure on all natural gas lines shall be erected at the expense of said company and shall be open at all times to public inspection and shall be located at such point as may be directed by the city civil engineer when concurred in by the common council. And it shall be, and is hereby, made the duty of the said engineer to notify said company to reduce or cut off the pressure upon such line or lines as the public safety from time to time may require. And it shall be, and is hereby, made the duty of the city attorney to institute such legal proceedings as may be necessary to compel a compliance with the provisions of this ordinance and with all other ordinances now in force or hereafter passed and all acts of the general assembly affecting such natural gas company.

Sec. 11. In consideration of the use of the streets, alleys, avenues lanes and public grounds of the city and for the granting of this franchise said Salamonie Mining and Gas company shall, as a condition to the exercise of the franchise herein granted, furnish natural gas to consumers for and at the schedule price following, to-wit:

Sec. 12. The said Salamonie Mining and Gas company furnishing gas under the provisions of this ordinance shall have the right to discontinue the further supply of gas to any consumer in case of ten days default after the first day of each succeeding month in the payment for the charges for said gas, but when the payment of such charges shall have been made gas shall again be furnished to such consumer on his request. The common council hereby expressly reserving the right to revise and refix the rates and prices herein designated and any time after the expiration of ten years from the date of the passage of this ordinance said rates shall be revised and refixed by a committee consisting of five disinterested business men of this city, two of whichare to be appointed by said city and two by said company and in case of disagreement the two shall select a third. The amount of rates thus fixed shall be binding upon both parties.

Sec. 13. The said Salamonie Mining and Gas company shall furnish gas under the provisions of this ordinance to all applicants for any purpose along its mains as provided for in section 11, whenever applied for, such company having sufficient gas to supply said consumers. Said company shall also commence to extend its mains according to the most approved plans along any street, alley, avenue, lane or public ground contiguous to where its mains are already laid within 60 days after being so ordered by resolution of the common council and when in the opinion of the common council such proposed extension of the mains is reasonable and ought to be made and shall continue such work and push the same to completion as rapidly as possible and a failure in complying with any such order said company shall be fined as hereinafter provided and each of such failure to comply with any such order shall constitute a separate offense.

Sec. 14. Said company shall exercise no rights of laying pipes in the city of Fort Wayne until said company shall have a line of mains laid from said gas producing region to the city limits of sufficient dimensions to comply with the intent and purpose of this ordinance.

Sec. 15. Before said Salamonie Mining and Gas company shall avail itself of the provisions of this ordinance it shall file with the city clerk its written acceptance of all provisions, restrictions, requirements and regulations of this ordinance which acceptance will be signed by the president and secretary of said company, together with a certified copy of a resolution duly passed by the board of directors of said company authorizing the execution and filing thereof accepting all the conditions, provisions and stipulations of this ordinance.

Sec. 16. The said company willfully violating any of the provisions of this ordinance directing anything to be done or enjoining the doing of anything shall on conviction be fined any sum not exceeding $100 on the complaint of any citizen filed befor the mayor.

Sec. 17. The city of Fort Wayne shall have the right by giving at least six months' notice to purchase the entire plant or plants of said company at any time after the completion of the works, the amount to be paid for such plant or plants shall be ascertained by the appointment of five disinterested persons, two to be appointed by said city and two by said company and in case of disagreement the two shall elect a third. The amount thus fixed shall be paid by said city within six months after the amount to be paid for such plant or plants shall have been determined as herein provided.

Sec. 18. This ordinance shall take effect and be in force from and after its passage and publication once each for two consecutive weeks.

Sec. 19. Done at the council chambers in the city of Fort Wayne, this day of 1888.

A Declining Species.

No mere machine would ever fill the place of the old-fashioned printer, commonly known as a tramp. He belongs to a separate spiecies of the human race. He has no hesitation in correcting the editor's manuscript, and making him say things he would not say. It is idle for the editor to say that he is right. The old-fashioned printer has traveled more and knows better. If the editor, by pertinacity, does finally succeed in getting a passage corrected the way he wants it, it is disagreeable to see the old-fashioned printer slam his rule down on the case and start off with the galley toward the imposing stone with the remark that there are a number of chumps in the West who imagine, because they are able to write a few lines, that they know more than the universe. He doesn't say so, but we instinctively feel that he means us, and necessarily he must be the universe. Whatever may be the politics of the paper on which the old-fashioned printer works, his are invariably the opposite. This is to show that he is not to be coerced. He will borrow a dollar from the proprietor, and then go off and vote against the proprietor's interests, just to show his independence. He can umpire a base ball game, conduct a class-meeting or give a temperance lecture while he is full up to the neck. He is consistent in one thing. He opposes Chinese labor, and never patronizes a Chinese laundry. It is true that he rarely patronizes any other laundry, but does not deteriorate from his consistency. He will borrow a quarter from the editor, and then denounce the editor's greeness for lending it to him. He would rather steal a ride on a freight train than to travel on a pass in a palace car. He has a profound hatred for boarding-house keepers and with not a cent in his pocket does not hesitate to criticies the bill of fare in the most severe terms. Give him a quarter to buy drinks, and he may spend part of it for something to eat; give him a quarter to buy victuals and the money is sure to go for whisky. And yet with all these contrarieties, we should hate to see the old-fashioned printer supplanted by a machine. When almost starving himself he will divide his last penny with a brother printer. Memories of a mother and sister cause him to respect womanhood. And when he lays down to die, it may be in the bottom of a freight car, or in the corner of a fence, with nothing to wrap his shivering form but his dilapidated clothing, a generous heart often ceases to beat with his last breath. Who shall say that in the hereafter there is not a better future for the old-fashioned printer.—*Peoria Transcript.*

An Important Element

Of the success of Hood's Sarsaparilla is the fact that every purchaser receives a fair equivalent for his money. The familiar headline, "100 Doses One Dollar," stolen by imitators, is original with and true only of Hood's Sarsaparilla. This can easily be proven by any one who desires to test the matter. For real economy, buy only Hood's Sarsaparilla. Sold by all druggists.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It sooths the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

D. WALKER'S CALIFORNIA VINEGAR BITTERS

The Great Blood Purifier

And Health Restorer. Cures all kinds of Headache Within Thirty Minutes—Try it.

GEO. W. DAVIS, of 169 Baronne street, New Orleans, La., writes under date May 26th, 1886, as follows: "I have been going to the Hot Springs, Ark., for fifteen years for an itching humor in my blood. I have just used three bottles of Vinegar Bitters, and it has done me more good than the Springs. It is the best medicine made."

JOSEPH J. EAGAN, of No. 75 West street, New York, says: "Have not been without Vinegar Bitters for the past twelve years, and consider it a whole medicine chest in our family."

MRS. MATTIE FURGUSON, of Dryen, New York, says: "Vinegar Bitters is the best medicine I ever tried; it saved my life."

T. F. BAILEY, of Humbold, Iowa, says: "Vinegar Bitters cured me of paralysis, ten years ago, and recently it cured me of rheumatism."

MRS. WM. A. DAVIS, of Camden, N. J., says: "I have suffered greatly from indigestion and bowel troubles, and Vinegar Bitters gave me great relief."

JAMES H. DWYER, of Webster, Mass., writes: "I always use Vinegar Bitters as a spring medicine, and have the best of health."

L. COLEMAN, 77 Montgomery street, New York, writes: "I find your Vinegar Bitters a first-class tonic."

CURES HOLLOWHORN, CAKED BAGS, GRUB & HOOF DISEASE IN CATTLE!

Fort Wayne Sentinel.

FRIDAY, OCT. 12, 1888.

Anonymous Letters.

But the anonymous writer may decide to comment only without directing. He may feel constrained merely to bear his testimony to the worthlessness of the editor's labors, the absurdity of his opinions, the meanness of his motives, and the lamentable folly of his conduct. It is comical to think of the avalanche of such letters which pours pitilessly into the sanctum. The charitable waste-baskets can scarce accommodate the drifts. The wisdom which proceeds from statesmen in the barber's chair and on the benches of Union and Madison Squares overflows in this anonymous correspondence. It is in vain that the editorial malefactor attempts to escape judgment. The anonymous letter writer knows him much better than he knows himself, and his efforts to pose as a patriot, as a lover of order, as a friend of progress, will be sternly exposed to the scorn of mankind by "One who knows," by "Aristides," by "You know who," and by that terrible fellow who keeps society in such good order, "A foe to frauds and humbugs."

The great public will be glad to know of this omnipresent, invisible police, which regulates public men and editors, giving the reprobates their deserts in the anonymous letter. There was a public man with a lively sense of humor who said that whenever he made a speech of importance or significance he received a letter beginning uniformly, "Well, Pericles, what do you think of yourself now?" and proceeding to ask whether he was not yet aware of the profound odium into which he had fallen. "These," said Pericles, "are the humorous reliefs of public life. The importance which such worthy people attach to the expression of their dislike, the ingenious asperity of their tone, and at the end of the fulminating document no name, all reminds me in another way of Thackeray's description of George IV." He laughed as he recalled it.

Does the gentle reader recall it? Did he, perhaps, hear Thackeray read it with his rich voice, and its rollicking tone when he came to the humorous passages? Does it not seem another New York in which those lectures were delivered? He is describing the fourth George, but it is the writer of such letters as Pericles receives, with his pretentious self-importance, his perfumed air of superiority, and his air of pompous impudence, who seems to have sat for the portrait: "I try and take him to pieces, and find silk stockings, padding stays, a coat with frogs and a fur collar, a star and blue ribbon, a pocket-handkerchief prodigiously scented, one of Truefitt's best nutty-brown wigs reeking with oil, a set of teeth and a huge black stock, underwaistcoats, more under-waistcoats, and then nothing."—*George William Curtis, in Harper's Magazine.*

Hot-Water Drinking.

This practice is supposed by many to be a sort of cure-all for human ailments. W. F. Hutchinson in the *American Magazine* opposes this view. He says:

If hot water is ever of any value when swallowed, it must be by virtue of its heat alone, for below life temperature (98 deg. Fahrenheit) it is a fair emetic; above that it is a sharp stimulant- so sharp, indeed, as to be badly borne by a majority of stomachs. Hot or cold, it is ever a bad plan to drink quantities of fluid. Taken before meals, they ferments into debility; after eating, they seriously impede chyle formation by washing out too quickly unassimilated nutritive fluid.

It is a maxim of modern surgery that heated applications to mucous surfaces cause congestion in a secondary way; that, following sharp stimulus and contraction, comes a general relaxation of blood-vessels that fill lazily and remain distended from lack of power to propel blood forward. So I condemn the practice of drinking hot water unqualifiedly.

COL. NELSON TIFT, of Dougherty County, Ga., has 1,000 young pecan trees now growing. These trees came from the nuts of his large trees that are now of large proportions—from forty to fifty feet high and their wide-spreading branches cover a circumference of 150 feet. These trees are about twenty-five years old and fruit most prolifically. The nuts are of unusual size and are greatly relished by all who have ever eaten them. The pecan thrives as well in our soil and climate as the hickory, a native growth of that family in this section.

Many forget that the hair and scalp need cleansing. Extensive use of Ayer's Hair Vigor has proven that it is the best cleansing agent for the hair—that it prevents dandruff and stimulates the hair to renewed growth.

POPULAR SCIENCE.

In France specially prepared wood pulp is rapidly supplanting plaster-of-Paris in the manufacture of all kinds of building ornaments.

A remarkable photo-engraved chart of the Pleiades, showing 2,326 stars from the third to the seventeenth magnitudes, has been produced at the Paris Observatory.

It is stated, upon good authority, that the germs of "dry rot," the enemy of builders, can be carried by saws and other tools which have been in contact with infected wood, and that such transmissions and impregnation are often the cause of the mysteriously rapid decay of originally sound timbers.

A patented material, said to have all the properties of good lignum vitæ, is prepared in Leipsic, by M. Stockhardt, from ordinary soft wood. The wood is first impregnated with oil, then subjected to great pressure, causing a considerable increase in density.

The board of health of Paris has prescribed the following conditions under which the beating of carpets will be permitted in the city. The carpets must be brushed and beaten in entirely shut up rooms, and the dust deposited on the floor will be washed up with water containing some disinfectant of potent action. Strips of wool, etc., must be burned immediately.

It would appear that the days of the voluble and ubiquitous "lightning-rod man" are numbered. Science is against him and his ingenious arguments, and the number of rods manufactured are diminishing year by year. The *Electric Renaew* prophesies that the day will come when a lightning-rod on a house will be regarded in the same light as a horseshoe over a man's door.

Prof. Daniel Kirkwood points out that seven of the twenty known comets of short period have disappeared, either by breaking into fragments, like Biela's comet, or by the transformation of the orbit by the influence of Jupiter, as in the case of Lexell's comet. He had already given reasons for thinking that two of the short-period comets were asteroids drawn from their orbits by Jupiter's attraction, and he now advances evidence tending to show that the entire twenty were originally small planets.

a man for groaning when he has Rheumatism or Neuralgia. The pain is simply awful. No torture in the ancient times was more painful than these twin diseases. But—ought'n't a man to be blamed if, having Rheumatism or Neuralgia, he won't use Ath-lo-pho-ros, when it has cured thousands who have suffered in the same way? It has cured hundreds after physicians have pronounced them incurable.

"The skill of five physicians could not cure me of Rheumatism which had settled in the hips, neck and shoulders. So intense was the pain that sleep was almost impossible. The first dose of Athlophoros gave me relief, and the third enabled me to sleep for four and a half hours without waking. I continued its use, and am now well."

TAR-OID

NATURE HAS NO BETTER REMEDY

Than this New Compound of Tar for

Wounds, Burns, Sores, Piles, Salt Rheum, Eczema, and Coughs, Croup, Scrofula, Ulcers, Varicose Veins, Bronchitis, and Consumption.

TAR-OID must not be confounded with the cheap remedies which are prepared on the theory that *Skin Diseases* are caused by *impure blood*, which is not true. They have their cause in a want of *vital action* in the skin. TAR-OID restores this action, hence it cures every form of *Skin Disease*, also sores, burns, etc. It is soothing and wonderfully healing—gratifying results follow in every case. It is harmless and can be used with perfect safety by any one. It is superior to all other remedies. There is positively nothing else like it.

TAR-OID is a sure cure for piles. It never fails. We warrant a cure or refund the money. It gives immediate relief. It is perfectly safe, yet powerful in its action.

Wedding Bells.

Last evening, at 8 o'clock, occurred a very quiet wedding, at the residence of the bride's mother, on Brackenridge street. The contracting parties were Mr. George W. Fishering, of Allegheny City, proprietor of the Duquesne Furniture company, of that city, and Miss Hattie B. Jenkinson, of this city.

Members of the immediate family and a few special friends witnessed the ceremony, which was performed by the Rev. T. J. Bacher. After the repast the parties took the evening train for their future home in Allegheny City.

THE SENTINEL extends hearty congratulations and bears testimony that Mr. Fishering bore away from our city one of the most estimable and highly appreciated young ladies. May the perfume of happiness ever accompany them in life.

Judge Thurman will be tendered a box at the Temple on the occasion of his visit here the evening of the 17th by the Conreid opera company, and the performance will not open until after the evening street parade is over.

The Hendricks club will escort Judge Thurman to Peru after the reception in this city, next Wednesday, and will be accorded the place of honor in the parade there. They will also entertain the Cleveland Tilden club which is coming to Fort Wayne 1,000 strong October 17.

The democrats of Goshen are making extensive preparations for a grand rally next Tuesday, the 16th. Efforts to secure the attendance of Judge Thurman proved unavailing. The speakers for the occasion will be Congressman Mills, of Texas; ex-Senator Thomas F. Grady, New York; Gov. Isaac P. Gray, and Congressman Shively.

Millocker's opera, entitled "The Vice Admiral," is said to be brimful of pleasing and catchy melodies. This opera will be given for the first time in this city on next Wednesday evening at the Masonic Temple, by the Conreid English opera company. This opera was produced at the Casino in New York City where it ran 150 nights.

The Ligonier *Banner* says: "Last Saturday evening our next congressman, Hon. C. A. O. McClellan, of Auburn, addressed a fine audience at City hall. His remarks were mainly directed toward a discuision of the tariff, and he presented many good points. Mr. McClellan is a good reasoner and puts his facts before the people in a way that asserts his honesty of purpose. No democrat who heard him will fail to deposit a straight ballot."

Miss Millie McCurdy is visiting relatives at Indianapolis.

Mr. and Mrs. H. C. Schafer, of Evansville, are guests of the Wayne hotel.

Mr. Luke M. Fleming, of Warden Murdock's staff at the prison north, is in the city.

Postmaster Kaough to-day opened bids for the window trimmings of the government building.

Mary Gable, and not Mary Robabaugh, has sold to John T. Rodabaugh, lot No. 9, railroad addition.

Dr. Greenawalt reports an encouraging improvement in the condition of Mr. W. H. Brady, of Root & Co.

Mayor Muhler had four drunks before him this morning, and assessed the usual fine. Two paid and two went to jail.

The two children of Mr. Woehnker, of Fulton street, strayed away from home yesterday, but the police restored them.

Mr. J. H. Bass was a caller on the Pittsburg and Fort Wayne railroad officials while they were in the city yesterday.

The Indianapolis *Sentinel* says: "Deputy County Auditor Gorman and Deputy U. S. Marshal Wilkinson, of Fort Wayne, are in the city on official business."

Judge S. M. Hench was seized with a sinking chill in his office, last evening, and is confined to his room at the residence of Mrs. Fox, on East Wayne street.

The Catholic Library association met last night and transacted routine business. The election of officers was postponed until the second Thursday in November.

A meeting of business men is called for, at the Academy of Music, to-night to arrange for a proper decoration of the city on the occasion of Judge Thurman's visit.

Dr. J. W. Younge was at Indianapolis attending the annual meeting of the Tri-State veteran association. The doctor presided at the meeting and finds the affairs of the society in excellent shape.

The Cincinnati *Enquirer* yesterday announced Governor Hill, of New York, to speak in Fort Wayne to-night. This must be premature for the local committee has no notification of such a meeting.

Little Gertrude Fissel, daughter of Mr. Philip Fissel, of 61 Archer avenue, was injured by a street car on the Wells street bridge last evening. Her left hand was bruised and she was otherwise slightly hurt. Dr. McOscar attends to her.

The Tippecanoe club is highly pleased with its trip to Indianapolis. The members say they were royally entertained and were accorded the post of honor as escort to Mr. Blaine. The city band, of coure, was without a match in the line of march.

Every indication points that 50,000 people from abroad will be in Fort Wayne, next Wednesday, to hear Judge Thurman and other other distinguished speakers. This large crowd must be fed. The ladies' societies of the different churches, the Women's Relief corps and proprietors of hotels and restaurants are urgently requested by the committee to use their utmost efforts in this direction.

The *Daily News* makes a statement that the democrats, chagrined at Mr. S. M. Foster's prominence, propose to organize a counter demonstration next Monday evening to detract from his meeting at the Academy of Music. Nothing could be further from the truth than the assertion of the *News*. There is no occasion to envy Mr. Foster, but there is every reason to honor his manly course. The Hendricks club will have a flag presentation the evening of Mr. Foster's address, but it will occur at his meeting or before it. Out of a desire to hear him the democrats of the Fifth ward abandoned a proposed rally for next Monday evening.

The music lovers of this city, and their name is legion, will hail with pleasure the news of the return of the famous Conreid English Opera company, which appears at the Temple opera house next Wednesday evening. That this excellent organization will be be awarded an enthusiastic welcome may be taken as a foregone conclusion. The Conreid Opera company this season is almost an entirely new one, and it certainly is as brilliant as it is new. It is an exceedingly strong organization numerically, and the list of artists fairly sparkles with names famous in the musical world. "The Vice Admiral," Millocker's brilliant opera, will be given.

Every infidel or sceptic ought to have heard Evangelist Updike's sermon on the Divinity of Christ last evening. The large audience was held spell bound as prophecy after prophecy was unfolded and testimony after testimony from the greatest minds was presented in which Jesus of Nazareth was shown to be the Christ of God without a doubt. Every person present was convinced that the only reason why men did not confess Christ, as Mr. Updike said, either they are ignorant of the facts concerning him, or else their wicked and stubborn hearts choose to rebel against light and knowledge. Confessions are made at every meeting. The Christian people of this city will be held accountable if they do not encourage in every way this remarkable revival. Services at 7:30 each evening.

The Pennsylvania railroad inspection party only remained in the city about an hour yesterday. There were some seventy-five gentlemen in the company and they occupied two trains, the third train being exclusiveiy a dining car and kitchen. Among the officials of prominence was Mr. E. B. Taylor, the general superintendent; Mr. Thomas Rodd, engineer of maintenance and the division superintendents and roadmasters of the Pennsylvania system. The object of the tour is simply to test the track, which they do by means of an indicator in the car. They have a system of premiums in vogue on the line, the prizes ranging from $100 to $25, and this money will be awarded to the section foremen and trackmen on the report of this inspection party. They went to Lima from here.

ECHOES OF THE RAIL.

Two Men Injured in the Pittsburg Shops and a Brace of Accidents on the Road.

Fred Vodde, a moulder of the Bass works, is on the sick list.

The new planer machine at the Bass works is now in operation.

The Nickel Plate is having a big passenger business to western points.

Fred Ropa, of the Bass works, has returned from a trip to Cincinnati.

The pay-days have commenced and will follow each other in rapid succession.

Mr. T. F. Hendry, the district passenger agent of the Santa Fe road, was in the city yesterday.

A number of the employes of the Bass works attended the wedding of William Eberhart last evening.

George Haverly, of the Pittsburg blacksmith shops, is the first lieutenant of the Eighth ward first voters' club.

The excursion trains which took the republican delegations to Indianapolis yesterday did not return until after 7 o'clock this morning.

John Deagan, of the Pittsburg blacksmith shops, was receiving congratulations yesterday over the arrival of a handsome girl baby at his home.

S. W. Snow, general passenger agent and G. W. Stevens, assistant general superintendent of the Wabash road, were in the city yesterday on their way to Toledo.

John Schuster, an employe of the Pittsburg car shops, had his leg badly injured yesterday, while at work, by a heavy car axle falling on it. He was taken home in a carriage.

At Richmond, Va., next week, an important convention of railway engineers and firemen, representing the Brotherhood, will be held. At that time it is expected that the federation of engineers, firemen, switchmen and brakemen will be completed.

John Slater, the enthusiastic republican employe of the Pittsburg blacksmith shops, has returned from Indianapolis, and the boys request us to state that the Blaine rally had such an effect on him that he did not report for duty this morning.

Wm. Brossard, an employe of the Pittsburg blacksmith shops, met with a severe accident yesterday afternoon, about 3 o'clock. While operating the big shears in his department the index finger of his right hand got caught in the machinery and was cut off just below the second joint. He was taken to his home, on Wefel street, where his injury was dressed.

The Pittsburg shops in this city have received the official notice from the headquarters of the company to commence work upon the new locomotives and cars, the proposed building of which was mentioned in THE SENTINEL several days ago. The company will employ a number of new men in the various departments in addition to those which have taken positions lately. The blacksmith shops will employ thirty new men.

TWO FATAL ACCIDENTS.

By reason of a misplaced switch on one of the side tracks in the yards of the Pennsylvania road at Valparaiso Wednesday, a freight engine was run into the round house and through the wall, breaking out a large section of the brick work. While a force of men were engaged in clearing the wreck part of the roof fell in, and Claus Myers was almost entirely buried in the debris. After thirty minutes he was dug out alive, but so badly injured that he can not recover.

Yesterday while three men were crossing the high Fort Wayne trestle over Crow's run, near Beaver, Ohio, one of them, named Louis Stevens, fell through the timbers to the bed of the creek, fifty feet below, and was instantly killed. Stevens was a stranger in the vicinity. From letters found on his person it was ascertained he had friends living in Philadelphia.

The sale of seats for the Conreid opera company opens Monday morning.

The Pennsylvania company has completed a handsome new passenger engine. It was constructed especially for the Valpo-Chicago accomodation train, and designed to be the swiftest and sprightliest runner on the Pennsylvania system. It is built after the very latest pattern and has all the modern improvements. Engineer Charles Gogan and Fireman Frank Cowdrey are as proud and delighted over their new machine as they could possibly be if they were to "hit" the Louisiana lottery for $15,000 each. The new machine has been christened "Gogan's pet."

DR. YOUNGE.

Pleasant Testimonials From His Old Home.

The Palestine, (Ohio,) *Reveille* pays this compliment to Dr. Younge: "We had the pleasure of being introduced to Dr. J. W. Younge, of Fort Wayne, Indiana. The doctor is quite a polished and intelligent gentleman, and we were pleased to meet him. He has a government claim that he is looking after, and from an affidavit shown us, the claim is legitimate, and he must succeed in the matter. It involves some eighteen hundred dollars. The doctor has a lucrative practice, and is highly spoken of as a skillful physician." Locally, the *Reveille* concludes: "Dr. John W. Younge, who was born and raised here, passed through town last week, on his way to Washington, to report to the war department to be mustered out of the army. The doctor deserted from the hospital in 1863, he having been badly wounded at the battle of Malvern Hills, and went west and joined the army at Vicksburg. At the close of the war he was arrested and tried for desertion, imprisoned and pardoned, but failed to get a discharge, either honorable or dishonorable. He has at last succeeded in getting the record straightened through the influence of Capt. J. B. White, member of congress. The doctor went to Mexico in 1866 and became connected with the Mexican army and had the rank of colonel. He was also identified with the insurrectionary army of Cuba under the command of Col. Thomas L. Jordan. Col. Hugh Laughlin and the doctor enlisted in the same company for the three months service and also the three years service."

DR. GREEN.

He is Acquitted of a Serious Charge at South Bend.

Some days ago THE SENTINEL noted the arrest of Charley Green, of this city, at South Bend, on a charge of receiving stolen property.

Dr. Green, for he is familiarly known that way, was imposed on by some fellow and the officers happened to catch him with another man's property in his keeping.

He had a trial to-day and a telegram from Mr. S. L. Morris, his attorney, announces his complete acquittal. People who know Green never doubted his honesty in this matter and it will please them to hear of his vindication.

Capt. Hugh M. Diehl, Mr. J. W. Hayden and Mr. Morris attended the trial.

UNDER GUARD OF POLICE!

The Chicago Street Cars Make Their Run—The Deadly Dynamiter at Work.

CHICAGO, 11 a. m., Oct. 12.—At 10 o'clock three cars were run out of the barns at Western avenue under the protection of the police and have reached the business centre of the city without trouble. The north side cars made their trips this morning without serious interference. Captain Schaak, of the north side police, discovered this morning that the dynamite, which Jules Kalesberger was caught placing on the street car tracks on Sedgwick street yesterday, is the most violent explosive ever found by the police here.

Yesterday afternoon stones were thrown at the street cars as they passed and at Halstead street one of the drivers was attacked, thrown to the ground and pounded by several of the crowd. In the evening three large railroad torpedoes were placed on the track, and their explosion caused intense excitement.

Chief of Police Hubbard says that a more careful investigation of the supposed dynamite bombs shows that they contain plaster of paris instead of an explosive and they are consequently harmless.

LATER.

The chief of police now says they were dynamite bombs of a very dangerous character.

HEAD BLOWN OFF,

And the Body Partially Eaten by Hogs—The Terrible Fate of a Farmer.

WARSAW, Ind., Oct. 12.—J. W. Makemson, a farmer living near here, left home last Tuesday morning on a short hunting expedition, and expected to return home the same evening. Tuesday night passed, also Wednesday and Wednesday night.

His wife, nearly frantic, started some neighbors to search for him. They were rewarded by finding his dead body in the woods, with his head entirely blown off, and the body shockingly mutilated by hogs. It is supposed he had blown in the barrel of his gun, and the lead in the other barrel was discharged. He leaves a large family.

Congress.

WASHINGTON, Oct. 12.—Rice, of Minnesota, called up the report of the special committee investigating the charges of misconduct on the part of Mr. Stahlnecker, of New York, in connection with the new library building. A report which completely exonerated Mr. Stahlnecker was adopted.

Mr. Lannam, of Texas, moved that when the house adjourned to-day it be to meet Monday next. Agreed to.

The house then went into a committee of the whole on the private calendar.

Crackers Go Up.

CHICAGO, Oct. 12.—At a meeting of all the cracker bakers between Pittsburg and the Rocky mountains, held this morning, it was unanimously agreed to advance the price of crackers. The advance covers the entire price list and ranges from 1 to 1½c. per pound on the various kinds manufactured. The price goes into effect to-morrow.

Letters Robbed.

BUFFALO, Oct. 12.—Over a bushel of partly destroyed letters, addressed to business firms of this city, were found on the street this morning. They had been rifled of all the contents that could be turned into money. The perpetrator has been arrested. He proved to be the night clerk in the postoffice, named John Shields. He was appointed September 18, under the civil service law.

Working for Harmony.

NEW YORK, Oct. 12.—Sheriff Grant has announced that he will withdraw as the Tammany hall candidate for mayor of New York if Mr. Hewitt will.

Coffee Goes Up.

NEW YORK, Oct. 12.—The coffee market, which has been comparatively active lately, to-day advanced over a half cent on all grades.

Yellow Fever.

DECATUR, Ala., Oct. 12.—There has been three new cases of yellow fever in the last twenty-four hours.

The Railroad Horror.

WILKESBARRE, Oct. 12.—No new developments in the Lehigh valley railroad accident to-day.

THE MARKETS.

CHICAGO, Oct. 12.—Close—Wheat, about steady, at $1.14. Corn, about steady, at 45¼c. Oats, steady, at 24¾c. Flaxseed, $1.42. Pork, steady, $15. Lard, steady, at $9.10. October short ribs, $8.50.

CLEVELAND AND HARRISON.

What the Two Candidates Think of the Young Men's Christian Association.

BUFFALO, N. Y., Oct. 12.—President William H. Gratwick, of the Young Men's Christian Association, recently wrote to the two candidates for president asking their views regarding the work of the society, with special reference to the thirty-sixth anniversary of the Buffalo branch. President Cleveland wrote:

DEAR SIR:—I gladly comply with your request and tender the expression of my appreciation of the beneficent mission of the Y. M. C. A. so rapidly multiplying throughout our land. We are a busy nation. The impetuous rush and enterprise of our people to a casual observer would seem to yield no place to the consideration and fostering of the influences which radiate from these institutions. But to those who know how well our daily life is grounded upon Christian principles, it is a matter of no surprise that Young Men's Christian Associations challenge our attention and care. It seems to me that nothing is more essential to our continued welfare and prosperity as a people than the preservation of our faith in the usefulness of such organizations. Yours, very truly. GROVER CLEVELAND.

Mr. Harrison's letter is as follows:

MY DEAR SIR:—Your letter of September 8, has been received, and I think I should adhere to my former determination. If there were any occasion for an expression upon the subject, it would be cheerfully and heartily given; but to make an occasion does not seem to me to be appropriate. The organization is too well known to need any such such support or advertisement. Such a letter would appear to be rather in aid of myself than of the organization, and I have too much respect for it to seem to use it in that way. Very truly yours.

BENJAMIN HARRISON.

The former determination, Mr. Gratwick says, was that Mr. Harrison was sensitive about writing anything that might be construed as being political.

Worse Than First Reported.

QUINCY, Ill., Oct. 12.—The casualties from the falling of the amphitheater at the fireworks display in this city, are more numerous than at first reported, but so far none have proved fatal. Reports are still being received of injuries. In the excitement following the crash many of those hurt were carried away. Many names have not yet been reported. About 300 were more or less injured.

Accident at a Pole Raising.

RUSHVILLE, Oct. 12.—Yesterday, while the Hon. Jesse M. Wilson, of Washington City, was addressing a republican meeting at Andersonville, this county, at a pole raising, the pole fell, striking a man from Newton, O., named Jasper Shotwell, inflicting injuries which will possibly prove fatal. At the same time a small cannon exploded, fatally injuring Martin Lewis. Both will probably die.

A Young Man Suicides.

HAMILTON, Ohio., Oct. 12.—A young man named John Donges, jr., committed suicide by shooting himself three times with a revolver. The bullets took effect in his head, killing him instantly. He was the son of John Donges, of the firm of John Donges & Co., prominent manufacturers. The young man was twenty-six years of age and lived with his parents.

Honors to Governor Hill.

PERU, Ind., Oct. 12.—The Hendricks league of this city, 300 strong, will go to Lafayette Saturday morning, the 13th inst., by a special train to meet Governor Hill, and will act as his special escort from Lafayette to Logansport in the evening, where a grand demonstration is expected.

Got $1,500.

WABASH, Ind., Oct. 12.—Fifty pickpockets worked the crowd at the Blaine demonstration in Goshen, and secured about $1,500.

Mr. J. W. Makemson, a farmer living near Warsaw, whose accidental death is recorded in our telegraph column, is a relative of Mr. T. J. Logan, the court stenographer of this city.

Mr. P. H. Linneen, of Lockport, the water works pump salesman, is in the city to negotiate the sale of an engine to the council. Mr. Linneen is western agent for the Holly company.

The following persons took out their second naturalization papers to-day: Lewis Kroppe, John Fifel, Ferdinand Kruse, Wm. Doister, Joseph Heinemann, August Giese, and George Yagle.

E. S. Swigert, Bluffton; J. D. Farrell, LaGrange; W. W. Eaton, Cadillac; W. E. Denman and R. Gates Rice, New York; Henry Eder, Chicago; and H. J. Hoforkamp, Cincinnati, are guests of the Aveline.

FLOOD DEAD.

The Bonanza King Expires at Heidelberg After Long Suffering From Bright's Disease.

SAN FRANCISCO, Oct. 12.—Millionaire James C. Flood died at Heidelburg yesterday. He never rallied from the attack that seized him on Tuesday, and from which he was reported to be dying Wednesday.

The "Bonanza King" suffered from Bright's disease, and had two relapses since the big wheat deal of 1886, when, with Mackay, he lost $10,000,000 in an attempt to bull the cereal. He sought to restore his health by traveling to Carlsbad with his wife.

LOCAL NEWS.

Sheriff Viberg arrived home from Indianapolis this morning.

Hon. Will H. Shambaugh was at Huntington this morning.

Mr. Harry Metzgar, the pleasant clerk of Judge O'Rourke court, is quite ill.

A residence at La Otto burned yesterday, so the incoming train men tell us.

Editor Will R. Emery, of the Huntington *Democrat*, was a pleasant caller yesterday.

Margaret F. Eyanson et al. sue T. P. Anderson to quiet title to real estate. H. C. Hanna is attorney in the case.

The financial secretary will call upon the members of the Business Men's exchange for their monthly dues to-morrow.

Geo. Miller sues Josephine Federspield et al. to quiet title to real estate. Spencer & Jenkinson filed the complaint.

C. F. Nicholas, and W. T. Davis and wife, New York; W. G. Holloway, Worcester; A. H. Mussey are guests of the Wayne.

Mr. L. P. Huntoon is at home from Cleveland, where he looked at the new county map now nearing completion. He pronounces it perfect.

Hon. Wm. F. McNagny, of Columbia City, is a guest of the Wayne hotel. He speaks at Leo to-night and is doing great work for the democratic cause.

Col. C. C. Matson, Hon. John R. East and Mr. Jean Adkins were guests of the Wayne hotel this morning, en route to Huntington, where they address a democratic meeting to-night. The weather is not favorable to them.

Last summer, Will Peltier, while camping out at Rome City, had a costly shot-gun stolen from his tent. The other day he discovered the shot-gun in the possession of a Rome City lad and made him give it up. There will be no prosecutions.

Rev. Dr. Israel Aaron, formerly pastor of the Aeduth Veshalom congregation, of this city but now of Beth Zion congregation, Buffalo, N. N., will occupy the pulpit from which he preached for more than four years, to-morrow. Services commence at 10 o'clock. The public is invited.

The latest telegraph company reported as coming to the relief of Fort Wayne sufferers is the Edison Mutual, which has its wire along the Cincinnati, Van Wert and Western road and general office at Van Wert, Ohio. Jay Gould has not likely heard of this line or he would gather it in his monopolistic embrace.

The Indianapolis *Journal* says: "Hon. I. D. G. Nelson, who went north a fortnight ago, is expected home to-morrow, with his wife and daughter, who have been spending several months at Alma Springs, Mich. Mrs. Nelson is but very little improved in health. They will reside at No. 194 East Michigan street."

The thirty-fourth annual convention of the Lutheran synod of northern Indiana met at the Lutheran church, in North Manchester, Tuesday last. Rev. D. F. Kain, of Albion, president of the synod, preached the opening sermon. The sessions will continue until next Monday. The Woman's Home and Foreign Missionary society of the synod will also hold its session.

The Philadelphia *Record* devotes two columns to extracts from Hon. Hugh McCulloch's forthcoming book, embodying portions of the article recently published in THE SENTINEL, and adds editorially: "The declaration of Hon. Hugh McCulloch, secretary of the treasury under Presidents Lincoln, Johnson and Arthur, that he will cast his vote for Cleveland and Thurman will not fail to make a strong impression upon the people of the country. Mr. McCulloch has always been a steady opponent of the democratic party. He was a whig before he was a republican. But he holds fast to the republican tariff policy enunciated by the republican administrations of which he was a part and can not swallow the doctrine of "Protection for the sake of protection" now made an article of party faith. Mr. McCulloch believes in the tariff policy advocated by Sumner, Chase, Wilson, Garfield, Fessenden, and other great contemporaries of his own in the better days of his party, and he has given such reasons for his faith as must commend them to the consideration of all his fellow-citizens. We particularly invite the attention of our republican readers to the words of a man whom President Lincoln deemed worthy to wear the mantle of Chase, and whom he intrusted with the management of our fiscal affairs in a period of the utmost difficulty."

TRIUMPHANT DEMOCRACY.

The Rally Last Night is Recorded a Great Success—The Banner Presentation.

The joint demonstration of the Sixth and Seventh wards and Wayne township democracy last night was a magnificent affair.

The parade was one of the largest of the season and certainly the handsomest. The railroad men were 150 strong with their colored lanterns. The Thurman club, regaled in red bandanna ulsters, made its bow, while the Hendricks legion and first voters won new laurels.

All along the line of march houses were brightly illuminated, and every where the clubs received an ovation. Their approach to the Hamilton field was lighted up by a monster bonfire, while sky rockets and Roman candles sent their fire high into the heavens, making the scene exceedingly picturesque.

The attendance was beyond all expectation, and the enthusiasm unbounded. Hon. J. M. Barrett and Mr. Henry Colerick spoke from one stand, and Hon. Robert Lowry and Hon. O. L. Ballou from another. They were eagerly listened to and made master speeches, reviewing the issues of the day with such ability as to win the warmest applause.

The rain prevented a speech by Mr. Anselm Fuelber, and the meeting was an hour shorter than anticipated.

The affair was presided over by Hon. C. F. Muhler, and was admirably handled by its promoters.

The Democratic railroad club, headed by the Union Cornet band, last evening, marched to the residence of Hon. P. S. O'Rourke, on McClellan street, where they were presented with a handsome silk banner by his daughter, Miss Lida O'Rourke. In making the presentation, she addressed them as follows:

"Gentlemen of the Cleveland and Thurman club: You will please accept this silk banner as a token of friendship in the great and noble cause you are battling for. Yes, go forth and unfurl this beautiful banner to the breeze in defence of Cleveland and Thurman, and on the 6th of November there will be no doubt but that Cleveland, Thurman and reform will be vindicated by the great masses of the American people."

Capt. Martin Minch, of the railroad club, responded in a few well chosen words, after which Hon. P. S. O'Rourke was called for and addressed the club in a short but forcible and happy manner, followed by Mr. Charley Sloat in a few words of good cheer for the railroad boys.

Mr. O'Rourke's residence was beautifully illuminated with Chinese and railroad lanterns and the front was covered with bandana handkerchiefs and large pictures of Cleveland and Thurman. The scene was a pretty one and its brilliancy was increased by the illuminations that hung from a number of residences along Douglass avenue.

OUR BOYS ABROAD.

The Fort Wayne Delegation Honored at Indianapolis.

Indianapolis *Journal*.

The Tippecanoe club, of Fort Wayne, came in about 1:30 on a special train via the Lake Erie and Western. They numbered eighty-two all told, and were captained by Ed. White, son of the republican congressman from the Twelfth district. They were handsomely uniformed in white duck leggins, light overcoats of uniform color, and silk tiles, and were headed by the celebrated Fort Wayne City band. The procession had already commenced moving when they arrived, but they were given the post of honor at the head of the second division when the line of march was reached, and their appearance everywhere was greeted with marked expressions of commendation. The Fort Wayne crowd altogether numbered nearly 500 people. They returned at 11 o'clock last night. During the evening the club, led by the Tippecanoe club band, of Fort Wayne, serenaded the *Journal* office. The visitors were introduced by Mr. Leonard, of the Fort Wayne *Gazette*."

The Indianapolis *Sentinel* adds:

The procession moved on. It soon became very evident that the republicans had made the parade a state affair. All the towns of any importance within 150 miles were represented. Fort Wayne's delegation was probably complimented more than any other club in the procession. The members numbered nearly a hundred. They wore drab overcoats, light colored leggings, silk hats, and carried hickory canes in the position of "carry arms."

A REPUBLICAN SCHEME.

An Effort Made to Influence the Knights of Labor.

The republicans are attempting a very cute scheme on the workingmen. A republican Knight of Labor will come from another state and attend the assembly meeting as a visitor. He will precipitate a political discussion and then, abusing the customary privileges accorded a visiting member, will come forward and deliver a set eulogium upon Ben. Harrison and heap calumny upon the democracy. One J. D. Harris of some place in Ohio has just entered this state to work the game. About a dozen other Buckeye specimens of this type are on their way. Local knights have received official notice of their coming. They are expected at the first meeting of the assemblies. Of course they will fall flat when they discover that their intentions are anticipated.

Protection to Health.

The state and national governments are preparing to enact stringent laws for the protection of the people's health, and this the more especially in the matter of adulterations whereby the food of the public is contaminated with cheap and filthy substances at the instance of unscrupulous money-seekers who thus rob the people of both their health and their means. One of the most common yet vilest adulterants is ammonia, a noxious drug. The original source or supply of ammonia was camel's dung. This foul substance is found in the refuse of men and animals. It is this that produces the pungent and sickening odors in urinals and neglected stables. It is corrosive poison in its concentrated form. The effect of this drug seems to be cumulative, and when taken into the stomach in small doses repeatedly it is easy to conceive that its action must be irritating to the coating of the stomach, and to the kidneys, thereby causing much wretchedness. Ammonia is used in the manufacture of baking powder largely advertised as being "Absolutely Pure," and probably more than one-half the cans of baking powder on most grocers's shelves contain this vile and dangerous drug. Baking powders containing ammonia, alum, and other foul substances are calculated by their very nature to injure the health of men, women, and children. It is important for housewives to know that Dr. Price's Cream Baking Powder is free from ammonia, alum, lime, and all adulterations whatsoever; also that it is healthful and economical; really, the most perfect made.

There will be a prohibition meeting at the circuit court room to-night.

Mr. C. L. Centlivre has been at home several days and looks exceedingly well after his European trip.

Gen. T. H. Nelson, of Terre Haute, is still a guest of the Wayne. He is evangelizing for the republicans.

Mr. Louis Centlivre, the popular young brewer, returned last night from Detroit, where he captured all the honors with his fancy driving team.

A half dozen democratic meetings are booked in the county to-night and the weather is anything but favorable. The life of a campaign orator is not always a happy one.

Martyrs to Headache

Seek relief in vain, until they begin to use Ayer's Sarsaparilla. Then they regret the years of suffering they might have escaped had they tried this remedy earlier. The trouble was constitutional not local; and, until Ayer's Sarsaparilla did its effective work as an Alterative and Blood Purifier, they were compelled to suffer.

The wife of Samuel Page, 21 Austin st., Lowell, Mass., was, for a long time, subject to severe headaches, the result of stomach and liver disorders. A perfect cure has been effected by Ayer's Sarsaparilla.

Frank Roberts, 727 Washington st., Boston, says that he formerly had terrible headaches, and until he took Ayer's Sarsaparilla, never found any medicine that would give

Permanent Relief.

"Every Spring, for years," writes Lizzie W. DeVean, 202 Fifteenth st., Brooklyn, N. Y., "I have had intolerable headaches. I commenced the use of Ayer's Sarsaparilla last March, and have not had a headache since that time."

"I suffered from headache, indigestion, and debility, and was hardly able to drag myself about the house," writes Mrs. M. M. Lewis, of A st., Lowell, Mass. "Ayer's Sarsaparilla has worked a marvelous change in my case. I now feel strong and well as ever."

Jonas Garman, Esq., of Lykins, Pa., writes: "For years I have suffered dreadfully, every Spring, from headache, caused by impurity of the blood and biliousness. It seemed for days and weeks that my head would split open. Nothing relieved me till I took Ayer's Sarsaparilla. This medicine has cured me completely."

When Mrs. Generra Belanger, of 24 Bridge st., Springfield, Mass., began to use Ayer's Sarsaparilla, she had suffered for some years from a serious affection of the kidneys. Every Spring, also, she was afflicted with headache, loss of appetite, and indigestion. A friend persuaded her to use Ayer's Sarsaparilla, which benefited her wonderfully. Her health is now perfect. Martyrs to headache should try

DR. GEO. MACDONALD, the preacher and novelist, is a tall man with a finely shaped head, which is crowned with gray hair parted in the middle. His beard and mustache of iron gray are long and silken. He appears to great advantage in the pulpit, for he preaches with earnestness and in a voice of melodious quality, made attractive by an unmistakable Scotch "burr."

RAILROAD men say that lightning occasionally strikes locomotives when they run through thunder storms, but that it has never been known to harm them or the men in their cabs. The electricity thins out and spreads all over the engine, running off the wheels and along the tracks when it leaves the machinery. The impression is that the locomotives are lightning catchers and attract the bolts that otherwise might hit the cars.

MR. GLADSTONE is a great talker, and he who calls on him is a listener, as the grand old man monopolizes the conversation in a grand old manner. This has its compensation, as Mr. Gladstone not infrequently afterward attributes to the caller what he said himself. Mr. Gladstone is said to have sent for a certain young nobleman very fully posted on the Eastern question. The young nobleman went, and next day a friend congratulated him on the impression he had made. "Mr. Gladstone says he never met any one who knew so much about the Caucasus." Lord X. laughed, "I was with him two hours, and never opened my mouth."

ONE day last winter while a Bangor fisherman was cutting through the ice with a big chisel preparatory to a day's sport, the chisel, which had a handle like a shovel, slipped from his grasp and went to the bottom. But he had a hole cut. So he set some lines baited with live shiners, and went to camp. When he tried his lines afterward he decided that he had caught something, a whale perhaps, by the way it pulled. He landed his catch, and found that he had a three-pound trout and a chisel. When the chisel went down it had stuck upright in the mud. The shiner on the hook had swung through the hole in the handle. A trout had seized it and wound the line around the handle, and as the line was strong the result was as narrated.

MRS. SHERIDAN is partly of Cherokee blood. Her father, says the New York *Tribune*, Gen. Rucker, then Lieutenant Rucker, while stationed at Fort Gibson, Cherokee Nation, married a Miss Coody, whose mother was a daughter of a sister of the Cherokee chief, John Ross, who ruled over the nation for a period of forty years. The establishment of this Cherokee right by blood, which is required of all Cherokees who have severed their connection with the nation beyond a year, would entitle Mrs. Sheridan to one-eighteen-thousandth undivided share in fourteen million acres of land and a life share in $3,000,000 of funds held in trust by the United States, on which an annual interest of $140,000 is paid to the Cherokees.

SOMEBODY wisely suggests that in making up a party for a traveling excursion it is always to include one ignorant woman, because she will ask all the questions that everybody else will wish to ask but will be ashamed to put into words. As a matter of fact, however, it is the ignorant people who are oftenest ashamed to ask about things they do not understand, and it takes a person of much cleverness and tact to ask questions continually without becoming infinitely tedious.

COUNCIL PROCEEDINGS.

ORDINANCES.

An ordinance granting the Salamonie Mining and Gas company the right and privilege to lay, maintain and operate gas pipes in the City of Fort Wayne for illuminating, heating and power purposes and limiting the price to be charged consumers therefor.

Sec. 1. Be it ordained by the common council of the city of Fort Wayne that subject to the terms, conditions and provisions of this ordinance there is hereby granted to the Salamonie Mining and Gas company, a corporation duly organized and existing under the laws of the state of Indiana, its successors and assigns the right-of-way along, through and under the streets, avenues, lanes, alleys and public places in said city for the purpose of laying, constructing, maintaining, using and operating one or more lines of gas mains, branch pipes with necessary feeders and service pipes, drips and other devices necessary for the successful operation of said lines and pipes in conducting, supplying and delivering natural gas or produced gas to consumers thereof for illuminating, heating and power purpose.

Sec. 2. Before the said Salamonie Mining and Gas company desiring to pipe the city of Fort Wayne for supplying natural gas shall do any work towards laying any mains or pipes in any street, avenue, lane, alley or public ground under the grant thereof, such company shall execute a bond to the city of Fort Wayne, Ind., in the penal sum of $5,000 in the form and with the approval of the mayor, in which one or more sureties shall reside in Allen county, Ind., conditioned as follows:

1st. The said Salamonie Mining and Gas company will not in any manner molest, damage or interfere with any water pipes or public or private sewers now laid or constructed or which may hereafter be laid or constructed, in or along any of the streets, alleys, lanes, avenues or public grounds of said city.

2d. That said Salamonie Mining and Gas company will restore any and all streets, alleys, lanes and avenues or public grounds in which it may lay mains or pipes or which it shall disturb or interfere with in laying pipes or trenchings or excavations for the purpose of laying mains or pipes, or in using any apparatus or machinery in connecting any connection through them, to as good a condition as they were before the laying and use of said mains or pipes, apparatus or machinery, and before said trenching and excavating were begun, and that it will maintain the same in such condition for one year after such mains or pipes are laid, or such trenches or excavations dug or made, and in all cases where said city shall have taken a bond or agreement from any contractor to keep and maintain the pavement in the street in good repair for a given time, the said company shall keep that portion in such street from which it may remove the pavement for the purpose of laying its mains, pipes and conducts in good condition and repair for the same period of time stipulated in said bond or agreement between the city and the contractor.

3d. That said Salamonie Mining and Gas company will, without delay, clear from such streets and place dirt and rubbish caused by or resulting from the laying of said mains of pipes or making such trenches or excavations.

4th. That said Salamonie Mining and Gas company will reimburse the said city from all sums it may expend in restoring any street or other public place, or any part thereof, to as good a condition as the same was before the same was opened for the purpose of laying said mains and pipes thereof and for all sums expended in clearing any such streets or places from dirt or rubbish, caused by or resulting from the laying of said mains or pipes where the said company failed to remove the streets or other places or removed such dirt or rubbish as provided by this ordinance.

5th. That it will indemnify and save harmless the city from and against any and all claims, demands, actions, suits, judgments or liabilities of every kind us the said city may be subjected to or incur in consequence or growing out of the opening of said streets or other places, or the carrying of said mains or pipes therein, or of permitting or having such gas within the city or in such mains or pipes or in said streets or other places, or doing work incident to this grant or the manner of doing the same, or in consequence of injuries or damages to persons or property by said gas or by reason of any explosion of such gas or in consequence of or growing out of the failure of said company to restore the said streets or other places to as good a condition as they were before being opened by it or in consequence of or growing out of any negligence or the agents or servants of said company, it being the intention of the city and said company accepting the provision of this ordinance that said company shall be liable as between them and said city in all such cases.

6th. That the said company in accepting the provisions of this ordinance shall within one year lay not less than twenty-five miles of mains within the corporate limits of said city.

Sec. 3. The mayor may require the renewal of the bond provided for in the last section whenever in his judgment it has become insufficient by reason of the death or insolvency or any of the sureties on said bond.

Sec. 4. All mains or pipes laid under the provisions of this ordinance shall be laid in an alley wherever the same is practicable and no right shall ever be subjected, or mains or pipes laid in said city by said company under the provisions of this ordinance until a general plan showing the streets and alleys, avenues, lanes or public grounds to be opened and the proposed location of the mains or pipes on such streets, alleys, avenues, lanes or public grounds, and the highest pressure intended to be carried on said lines with the precaution for safety shall have been furnished to the city civil engineer of said city and the common council and receive their approval which general plan shall be retained by said engineer in his office as a public record.

Sec. 5. Whenever the city of Fort Wayne shall determine to construct any sewer, water pipe or other improvement in, along or across any street, alley, avenue or lane where any main or pipes of said company shall be laid, said company shall at its own expense lower, elevate, change or remove the mains or pipes so that said sewer, water pipe or improvement may be laid at the place determined upon by said city. Notice given by the city civil engineer in writing shall be sufficient.

Sec. 6. All the pavements, sidewalks, crosswalks, curbstones, gutters, streets, alleys, or public grounds in any way displaced, disturbed or injured by said company in laying, altering, repairing or maintaining its mains, pipes, street boxes, valves or other appliances shall immediately be restored, replaced, repaired and put in as good condition as the same were before being disturbed or replaced as aforesaid.

Sec. 7. All work in laying or repairing mains or pipes shall be conducted in such a manner as not to interfere with the public use or travel upon the streets, avenues, lanes and alleys of said city where it can be avoided and when such use is unavoidably obstructed by said company said company will, with all reasonable dispatch, repair and replace such streets, avenues, lanes, alleys or public grounds so that the public use will not be obstructed beyond a reasonable time. The work shall be pushed as rapidly as possible to completion and all of the streets, alleys, lanes and alleys or public grounds shall be promptly restored to as good condition as they were in before the work was commenced and shall be kept in such condition by said company for a period of one year any street, alley, avenue, lane or public ground shall be opened under the provisions of this ordinance between December 1st and March 1st, unless the city civil engineer in specific cases shall authorize the same.

Sec. 8. All pipes, mains and apparatus of every kind and description used by said company shall be of improved design and quality; all the pipes shall be standard weight and shall be so laid as not to interfere with the use of the streets, alleys, avenues, lanes or public grounds after the same are in place. The mains and service pipes shall also be laid in public streets, alleys, avenues, lanes and public grounds of said city so as to prevent the escape of gas and in such a manner as that the use of gas will be safe; said service pipe shall be laid to the property line without expense to the persons desiring to use the gas.

Sec. 9. If the city civil engineer shall discover at any time that said company is doing its work in a careless, incompetent or unskilful manner he shall notify the said company prosecuting the work in writing, and if such carelessness, incompetency and unskillfulness is not immediately remedied he shall report the same to the common council, who shall have the power to pass and enforce such ordinance and resolution as shall remedy the defect.

Sec. 10. In order to provide against gas that may escape from high or low pressure mains and pipes from passing into cellars, sewers and buildings it shall be and it is hereby made the duty of said company laying mains or pipes for carrying gas aforesaid when deemed necessary by the city civil engineer and said common council to provide, furnish and supply a system of escape pipes, to be approved by the city civil engineer and said council sufficient to carry off any and all gas which may leak or escape through said service joints, service pipe connections or defects in mains. Gauges showing the amount of pressure on all natural gas lines shall be erected at the expense of said company and shall be open at all times to public inspection and shall be located at such point as may be directed by the city civil engineer when concurred in by the common council. And it shall be, and is hereby, made the duty of the said engineer to notify said company to reduce or cut off the pressure upon such line or lines as the public safety from time to time may require. And it shall be, and is hereby, made the duty of the city attorney to institute such legal proceedings as may be necessary to compel a compliance with the provisions of this ordinance and with all other ordinances now in force or hereafter passed and all acts of the general assembly affecting such natural gas company.

Sec. 11. In consideration of the use of the streets, alleys, avenues lanes and public grounds of the city and for the granting of this franchise said Salamonie Mining and Gas company shall, as a condition to the exercise of the franchise herein granted, furnish natural gas to consumers for and at the schedule price following, to-wit:

Sec. 12. The said Salamonie Mining and Gas company furnishing gas under the provisions of this ordinance shall have the right to discontinue the further supply of gas to any consumer in case of ten days default after the first day of each succeeding month in the payment for the charges for said gas, but when the payment of such charges shall have been made gas shall again be furnished to such consumer on his request. The common council hereby expressly reserving the right to revise and refix the rates and prices herein designated and any time after the expiration of ten years from the date of the passage of this ordinance said rates shall be revised and refixed by a committee consisting of five disinterested business men of this city, two of whichare to be appointed by said city and two by said company and in case of disagreement the two shall select a third. The amount of rates thus fixed shall be binding upon both parties.

Sec. 13. The said Salamonie Mining and Gas company shall furnish gas under the provisions of this ordinance to all applicants for any purpose along its mains as provided for in section 11, whenever applied for, such company having sufficient gas to supply said consumers. Said company shall also commence to extend its mains according to the most approved plans along any street, alley, avenue, lane or public ground contiguous to where its mains are already laid within 60 days after being so ordered by resolution of the common council and when in the opinion of the common council such proposed extension of the mains is reasonable and ought to be made and shall continue such work and push the same to completion as rapidly as possible and a failure in complying with any such order said company shall be fined as hereinafter provided and each of such failure to comply with any such order shall constitute a separate offense.

Sec. 14. Said company shall exercise no rights of laying pipes in the city of Fort Wayne until said company shall have a line of mains laid from said gas producing region to the city limits of sufficient dimensions to comply with the intent and purpose of this ordinance.

Sec. 15. Before said Salamonie Mining and Gas company shall avail itself of the provisions of this ordinance it shall file with the city clerk its written acceptance of all provisions, restrictions, requirements and regulations of this ordinance which acceptance will be signed by the president and secretary of said company, together with a certified copy of a resolution duly passed by the board of directors of said company authorizing the execution and filing thereof accepting all the conditions, provisions and stipulations of this ordinance.

Sec. 16. The said company willfully violating any of the provisions of this ordinance directing anything to be done or enjoining the doing of anything shall on conviction be fined any sum not exceeding $100 on the complaint of any citizen filed before the mayor.

Sec. 17. The city of Fort Wayne shall have the right by giving at least six months' notice to purchase the entire plant or plants of said company at any time after the completion of the works, the amount to be paid for such plant or plants shall be ascertained by the appointment of five disinterested persons, two to be appointed by said city and two by said company and in case of disagreement the two shall select a third, and the amount so found shall be paid said city within six months after the amount to be paid for such plant or plants shall have been determined as herein provided.

Sec. 18. This ordinance shall take effect and be in force from and after its passage and publication once each for two consecutive weeks.

Sec. 19. Done at the council chambers in the city of Fort Wayne, this day of 1888.

Mayor.

[Attest,]

City clerk.

The ordinance was read a first and second time and on motion was referred to the committee on rules, regulations and ordinances mayor and city attorney with instructions to report to the committee of the whole, on Friday evening, October 12, at 7:30 o'clock.

CONTRACTS AND BONDS.

The trustees of the water works submitted a contract and bond with E. A. Stimpson & Co., (which is recorded in full in miscellaneous contract and bond book No. 1, pages 154, 155, 156, 157 and 158 and is a part of these minutes) for the laying of pipes in the water wells in the pumping house. Which contract and bond was approved by the passage of the following resolution.

Resolved, That said contract is approved upon condition that the trustees pay for said work out of the water works maintenance fund and that the bond is approved to the satisfaction of the mayor.

W. DOHNMAN.

Adopted.

The contract and bond (which is recorded in full in contract and bond book 7, page 58, and is a part of these minutes) of Joseph Berheimer, to construct a 33-inch single ring brick sewer in the alley between Fairfield avenue and Pine street from the brick sewer on Fairfield avenue to DeWald street, was submitted.

Bond, $2,000.

Surety, Fred Schutz.

On motion the contract was accepted and bond approved.

The contract and bond (which is recorded in full in contract and bond book 7, page 59, and is a part of these minutes) of Conrad Nera, to construct a brick sidewalk on the west side of Hanna street, bordering on lots 44, 46 and 85 Lewis' addition, was submitted.

Bond, $5,000.

Surety, Conrad Nera and Wm. Nolic.

On motion the contract was accepted and bond approved.

The contract and bond (which is recorded in full in contract and bond book 7, page 61, and is a part of these minutes) of John Bertels for constructing an 18-inch clay pipe sewer in the alley was submitted.

Bond, $3,000.

Surety, August Gerberding.

On motion the contract was accepted and bond approved.

The contract and bond (which is recorded in full in contract and bond book 7, page 62, and is a part of these minutes) of John Bertels for constructing a 12-inch sewer in the alley between John street and Gay street, from the north line of Creighton avenue to the center line of lot 4, Hough's addition, was submitted.

Bond, $3,000.

Surety, August Gerberding.

On motion the contract was accepted and bond approved.

The contract and bond (which is recorded in full in contract and bond book 7, page 63, and is a part of these minutes) of John McCann for constructing brick sidewalks on the west side of Wells street from the brick sidewalks now constructed on said street to the St. Mary's river bridge, was submitted.

Bond, $5,000.

Surety, Louis Merz.

On motion the contract was accepted and bond approved.

The contract and bond (which is recorded in full in contract and bond book 7, page 64, and is a part of these minutes) of John McCann, for constructing brick sidewalks on both sides of Wallace street, from Lafayette to Monroe street, was submitted.

Bond, $5,000.

Surety, Louis Merz.

On motion the contract was accepted and bond approved.

RESOLUTIONS.

Resolved, That the street commissioner be and he is hereby instructed to fill to proper grade the gutter and culvert on the east side of Webster street, between Highland and Brandriff streets, so as to convey the surface water into the sand pit on the corner of Highland and Webster streets.

F. BANDT.

Referred to the committee on streets.

Resolved, That the city civil engineer be and he is hereby instructed to have all the surplus earth taken from the sewer in the alley between Butler street and DeWald street put on Harrison street between DeWald street and Butler street.

J. J. WILLIAMS.

Referred to the committee on streets.

Whereas, Certain business men of the city complain of the lack of enforcement of the law relating to the hocking and peddling of goods upon the public streets. Therefore, be it

Resolved, That the police officers are hereby ordered and directed to strictly enforce the law of the city relating to peddlers by promptly arresting and reporting for prosecution any and all persons found violating the same.

W. S. MEYER.

Adopted.

Resolved That the street commissioner be and he is hereby instructed to grade Superior street from Barr street to the St. Mary's river bridge as the county commissioners have agreed to macadamize with broken stone said street between said point.

FERD. SCHMUECKLE.

Referred to the committee on streets and city attorney.

Resolved, That the street commissioner be and he is hereby instructed to give notice to the proper officer of the Lake Shore and Michigan Southern railway company to repair the sidewalk on the north side of their right-of-way and on the east side of St. Mary's avenue.

LOUIS HAZZARD.

Adopted.

By Ely.

Resolved, (H. I.) That the sidewalks on the south side of Berry street, abutting on lot 9, block 17, Ewing's addition, be graded to a width of 12 feet and relay the brick to a width of 8 feet.

Which resolution was on motion adopted by the following vote.

Ayes, 16, viz: Councilmen Bandt, Dehrman, Ely, Halber, Hazzard, Hilbrecht, Huser, Kensil, Kelker, Meyer, Read, Scheid, Schmueckle, Smith, Woulfe and Williams. Nays, none.

Be it resolved, by the common council of the city of Fort Wayne, (two-thirds of all members thereof concurring) that the mayor appoint a special committee of five members of this council who shall jointly and together, with the city civil engineer, make an estimate of the cost and bonds heneitted by the construction of a 15-inch clay pipe sewer in the alley between Berry street and Wayne street, from the main sewer on Griffith street to Fulton street, by this to the first alley east of Calhoun street, by this council heretofore ordered to be constructed and in progress of fulfillment, together with such amounts as may be deemed just and equitable and to be now due and payable to the contractor for said work, deducting a reasonable percentage to secure its completion.

GEO. W. ELY.

Which resolution was on motion adopted by the following vote:

Ayes, 16, viz: Councilmen Bandt, Dehrman, Ely, Halber, Hazzard, Hilbrecht, Huser, Kensill, Kelker, Meyer, Read, Scheid, Schmueckle, Smith, Woulfe and Williams. Nays, none and Councilmen Hazzard, Hilbrecht, Meyer, Schmueckle and Smith appointed.

Next Wednesday is Thurman day.

A Declining Species.

No more machine would ever fill the place of the old-fashioned printer, commonly known as a tramp. He belongs to a separate speicies of the human race. He has no hesitation in correcting the editor's manuscript, and making him say things he would not say. It is idle for the editor to say that he is right. The old-fashioned printer has traveled more and knows better. If the editor, by pertinacity, does finally succeed in getting a passage corrected the way he wants it, it is disagreeable to see the old-fashioned printer slam his rule down on the case and start off with the galley toward the imposing stone with the remark that there are a number of chumps in the West who imagine, because they are able to write a few lines, that they know more than the universe. He doesn't say so, but we instinctively feel that he means us, and necessarily he must be the universe. Whatever may be the politics of the paper on which the old-fashioned printer works, his are invariably the opposite. This is to show that he is not to be coerced. He will borrow a dollar from the proprietor, and then go off and vote against the proprietor's interests, just to show his independence. He can umpire a base ball game, conduct a class-meeting or give a temperance lecture while he is full up to the neck. He is consistent in one thing. He opposes Chinese labor, and never patronizes a Chinese laundry. It is true that he rarely patronizes any other laundry, but does not deteriorate from his consistency. He will borrow a quarter from the editor, and then denounce the editor's greeness for lending it to him. He would rather steal a ride on a freight train than to travel on a pass in a palace car. He has a profound hatred for boarding-house keepers and with not a cent in his pocket does not hesitate to criticies the bill of fare in the most severe terms. Give him a quarter to buy drinks, and he may spend part of it for something to eat; give him a quarter to buy victuals and the money is sure to go for whisky. And yet with all these contrarieties, we should hate to see the old-fashioned printer supplanted by a machine. When almost starving himself he will divide his last penny with a brother printer. Memories of a mother and sister cause him to respect womanhood. And when he lays down to die, it may be in the bottom of a freight car, or in the corner of a fence, with nothing to wrap his shivering form but his dilapidated clothing, a generous heart often ceases to beat with his last breath. Who shall say that in the hereafter there is not a better future for the old-fashioned printer.—*Peoria Transcript.*

MISS JENNIE WEHLE, now filling the position of type-writer for ex-Postmaster General James, President of the Lincoln National Bank in New York, is the daughter of a millionaire and a highly accomplished young lady. The only reason she has for her singular freak is that she loves her work and does not care for society.

An Important Element

Of the success of Hood's Sarsaparilla is the fact that every purchaser receives a fair equivalent for his money. The familiar headline, "100 Doses One Dollar," stolen by imitators, is original with and true only of Hood's Sarsaparilla. This can easily be proven by any one who desires to test the matter. For real economy, buy only Hood's Sarsaparilla. Sold by all druggists.

Terribly Broken.

"And are you really so badly broke, my friend?" he said, as he tendered the tramp a penny.

"Broke?" was the bitter response "I'm as badly broken as the ten commandments."—*Life*

"For years, I suffered from loss of appetite and indigestion, but failed to find relief until I began taking Ayer's Sarsaparilla. This medicine entirely cured me. My appetite and digestion are now perfect."—Fred G. Bower, 496 Seventh street, South Boston, Mass.

I have not used all of one bottle yet. I suffered from catarrh for twelve years, experiencing the nauseating dropping in the throat peculiar to that disease, and nose bleed almost daily. I tried various remedies without benefit until last April, when I saw Ely's Cream Balm advertised in the Boston *Budget*. I procured a bottle, and since the first day's use have had no more bleeding—the soreness is entirely gone.—*D. G. Dunbain, with the Boston Budget, formerly with Boston Journal.*

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces naturl, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

POPULAR SCIENCE.

In France specially prepared wood pulp is rapidly supplanting plaster-of-Paris in the manufacture of all kinds of building ornaments.

A remarkable photo-engraved chart of the Pleiades, showing 2,326 stars from the third to the seventeenth magnitudes, has been produced at the Paris Observatory.

It is stated, upon good authority, that the germs of "dry rot," the enemy of builders, can be carried by saws and other tools which have been in contact with infected wood, and that such transmissions and impregnation are often the cause of the mysteriously rapid decay of originally sound timbers.

A patented material, said to have all the properties of good ligunm vitæ, is prepared in Leipsic, by M. Stockhardt, from ordinary soft wood. The wood is first impregnated with oil, then subjected to great pressure, causing a considerable increase in density.

The board of health of Paris has prescribed the following conditions under which the beating of carpets will be permitted in the city. The carpets must be brushed and beaten in entirely shut up rooms, and the dust deposited on the floor will be washed up with water containing some disinfectant of potent action. Strips of wool, etc., must be burned immediately.

It would appear that the days of the voluble and ubiquitous "lightning-rod man" are numbered. Science is against him and his ingenious arguments; and the number of rods manufactured are diminishing year by year. The *Electric Review* prophesies that the day will come when a lightning-rod on a house will be regarded in the same light as a horseshoe over a man's door.

Prof. Daniel Kirkwood points out that seven of the twenty known comets of short period have disappeared, either by breaking into fragments, like Biela's comet, or by the transformation of the orbit by the influence of Jupiter, as in the case of Lexell's comet. He had already given reasons for thinking that two of the short-period comets were asteroids drawn from their orbits by Jupiter's attraction, and he now advances evidence tending to show that the entire twenty were originally small planets.

Distress after eating, heartburn, sick headache, and indigestion are cured by Hood's Sarsaparilla. It also creates a good appetite.

DON'T SCOLD

a man for groaning when he has Rheumatism or Neuralgia. The pain is simply awful. No torture in the ancient times was more painful than these twin diseases. But—ought't a man to be blamed if, having Rheumatism or Neuralgia, he won't use Ath-lo-pho-ros, when it has cured thousands who have suffered in the same way? It has cured hundreds after physicians have pronounced them incurable.

"The skill of five physicians could not cure me of Rheumatism which had settled in the hips, neck and shoulders. So intense was the pain that sleep was almost impossible. The first dose of Athlophoros gave me relief, and the third enabled me to sleep for four and a half hours without waking. I continued its use and am now well."

Anonymous Letters.

But the anonymous writer may decide to comment only without directing. He may feel constrained merely to bear his testimony to the worthlessness of the editor's labors, the absurdity of his opinions, the meanness of his motives, and the lamentable folly of his conduct. It is comical to think of the avalanche of such letters which pours pitilessly into the sanctum. The charitable waste-baskets can scarce accommodate the drifts. The wisdom which proceeds from statesmen in the barber's chair and on the benches of Union and Madison Squares overflows in this anonymous correspondence. It is in vain that the editorial male/sator attempts to escape judgment. The anonymous letter writer knows him much better than he knows himself, and his efforts to pose as a patriot, as a lover of order, as a friend of progress, will be sternly exposed to the scorn of mankind by "One who knows," by "Aristides," by "You know who," and by that terrible fellow who keeps society in such good order, "A foe to frauds and humbugs."

The great public will be glad to know of this omnipresent, invisible police, which regulates public men and editors, giving the reprobates their deserts in the anonymous letter. There was a public man with a lively sense of humor who said that whenever he made a speech of importance or significance he received a letter beginning uniformly, "Well, Pericles, what do you think of yourself now?" and proceeding to ask whether he was not yet aware of the profound odium into which he had fallen. "These," said Pericles, "are the humorous reliefs of public life. The importance which such worthy people attach to the expression of their dislike, the ingenious asperity of their tone, and at the end of the fulminating document no name, all reminds me in another way of Thackeray's description of George IV." He laughed as he recalled it.

Does the gentle reader recall it? Did he, perhaps, hear Thackeray read it with his rich voice, and its rollicking tone when he came to the humorous passages? Does it not seem another New York in which those lectures were delivered? He is describing the fourth George, but it is the writer of such letters as Pericles receives, with his pretentious self-importance, his perfumed air of superiority, and his air of pompous impudence, who seems to have sat for the portrait: "I try and take him to pieces, and find silk stockings, padding stays, a coat with frogs and a fur collar, a star and blue ribbon, a pocket-handkerchief prodigiously scented, one of Truefitt's best nutty-brown wigs reeking with oil, a set of teeth and a huge black stock, under-waistcoats, more under-waistcoats, and then nothing."—*George William Curtis, in Harper's Magazine.*

Hot-Water Drinking.

This practice is supposed by many to be a sort of cure-all for human ailments. W. F. Hutchinson in the *American Magazine* opposes this view. He says:

If hot water is ever of any value when swallowed, it must be by virtue of its heat alone, for below life temperature (98 deg. Fahrenheit) it is a fair emetic; above that it is a sharp stimulant—so sharp, indeed, as to be badly borne by a majority of stomachs. Hot or cold, it is ever a bad plan to drink quantities of fluid. Taken before meals, they ferments into debility; after eating, they seriously impede chyle formation by washing out too quickly unassimilated nutritive fluid.

It is a maxim of modern surgery that heated applications to mucous surfaces cause congestion in a secondary way; that, following sharp stimulus and contraction, comes a general relaxation of blood-vessels that fill lazily and remain distended from lack of power to propel blood forward. So I condemn the practice of drinking hot water unqualifiedly.

Col. Nelson Tift, of Dougherty County, Ga., has 1,000 young pecan trees now growing. These trees came from the nuts of his large trees that are now of huge proportions—from forty to fifty feet high and their wide-spreading branches cover a circumference of 150 feet. These trees are about twenty-five years old and fruit most prolificully. The nuts are of unusual size and are greatly relished by all who have ever eaten them. The pecan thrives as well in our soil and climate as the hickory, the native growth of that family in this section.

Many forget that the hair and scalp need cleansing. Extensive use of Ayer's Hair Vigor has proven that it is the best cleansing agent for the hair—that it prevents dandruff and stimulates the hair to renewed growth.

TAR-OID

NATURE HAS NO BETTER REMEDY

Than this New Compound of Tar for Wounds, Burns, Sores, Piles, Salt Rheum, Eczema, and Coughs, Croup, Scrofula, Ulcers, Varicose Veins, Bronchitis, and Consumption.

TAR-OID must not be confound with the cheap remedies which are prepared on the theory that *Like Diseases* are caused by impure blood, which is not true. They have their cause in a want of vital force in the skin. TAR-OID restores this action, hence it cures every form of *Skin Disease*, also sores, burns, etc. It is soothing and wonderfully healing—gratifying results follow in every case. It is harmless and can be used with perfect safety by any one. It is superior to all other remedies. There is positively nothing else like it.

TAR-OID is a sure cure for piles. It never fails. We warrant a cure or refund the money. It gives immediate relief. It is perfectly safe, yet powerful in its action.

Wedding Bells.

Last evening, at 8 o'clock, occurred a very quiet wedding, at the residence of the bride's mother, on Brackenridge street. The contracting parties were Mr. George W. Fishering, of Allegheny City, proprietor of the Duquesne Furniture company, of that city, and Miss Hattie B. Jenkinson, of this city.

Members of the immediate family and a few special friends witnessed the ceremony, which was performed by the Rev. T. J. Bacher. After the repast the parties took the evening train for their future home in Allegheny City.

THE SENTINEL extends hearty congratulations and bears testimony that Mr. Fishering bore away from our city one of the most estimable and highly appreciated young ladies. May the perfume of happiness ever accompany them in life.

Opening of the Pacific to-night. Elegant free lunch. Music by Lapetina and Demasellis. No. 9 East Main street.

The council will meet to-night to discuss the natural gas ordinance which is published in full elsewhere in THE SENTINEL. There will only be a formal consideration to-night, as the ordinance will not come up for passage until next Monday evening.

FRIDAY, OCT. 12, 1888.

LOCAL NEWS.

Mr. Henry Miller is at Cincinnati.

The Angola fair was a failure this year financially.

Mr. A. D. Cressler went to Louisville, Ky., this morning.

Mr. and Mrs. J. H. Wilder went to Cincinnati yesterday.

Sneak thieves stole two coats from Louis Auger, the florist.

Dr. S. B. McManus contributes a poem to the Warsaw *Times*.

Hon. O. L. Ballou, of LaGrange, was a guest of the Wayne house.

The prohibitionists claim that they will have 10,000 votes in Indiana.

The Laugtry medicine party shows at North Manchester next week.

Dr. T. J. Dills was called to Aurora, Ind., yesterday on professional business.

Dr. John S. Irwin, superintendent of the public schools, was at Indianapolis yesterday.

Hon. Charles F. Muhler will be commander-in-chief of the great Thurman parade next Wednesday.

Messrs. Colerick & Oppenheim now occupy a pleasant suite of office rooms in the new Pixley-Long building.

Seats for "A Soap Bubble" are now on sale, and should be secured at once to avoid the rush at the box office.

The Thalonian and Philalathean societies of the Methodist colleges will give their usual entertainments this evening.

Business on the Wabash is falling off. Several brakemen have been laid off within the last few days on account of the dullness.

The government has purchased interior fixtures for the Fort Wayne postoffice and Postmaster Kaough expects to occupy the building next month.

The Huntington *Herald* says: "Mrs. Thomas Callahan, of Fort Wayne, has been visiting the past few days with the family of Thomas Brady, in this city."

The "Michael Strogoff" party gave a pretty weak performance last night. They went to Coldwater, Mich., this morning and seem to be doing small towns.

Henry Foos was arrested last evening on complaint of his wife, to whom he is abusive. The brutal fellow will have to gurantee Justice Ryan that he will keep the peace.

Miss Lillian Conway, with the Conreid opera company, will be remembered as singing Gounod's "Ave Marie," in the wonderful production of the "Soggarth" last season.

Judge Thurman will be tendered a box at the Temple on the occasion of his visit here the evening of the 17th by the Conreid opera company, and the performance will not open until after the evening street parade is over.

The Hendricks club will escort Judge Thurman to Pern after the reception in this city, next Wednesday, and will be accorded the place of honor in the parade there. They will also entertain the Cleveland Tilden club which is coming to Fort Wayne 1,000 strong October 17.

The democrats of Goshen are making extensive preparations for a grand rally next Tuesday, the 16th. Efforts to secure the attendance of Judge Thurman proved unavailing. The speakers for the occasion will be Congressman Mills, of Texas; ex-Senator Thomas F. Grady, New York; Gov. Isaac P. Gray, and Congressman Shively.

Millocker's opera, entitled "The Vice Admiral," is said to be brimful of pleasing and catchy melodies. This opera will be given for the first time in this city on next Wednesday evening at the Masonic Temple, by the Conreid English opera company. This opera was produced at the Casino in New York City where it ran 150 nights.

The Ligonier *Banner* says: "Last Saturday evening our next congressman, Hon. C. A. O. McClellan, of Auburn, addressed a fine audience at City hall. His remarks were mainly directed toward a discussion of the tariff, and he presented many good points. Mr. McClellan is a good reasoner and puts his facts before the people in a way that asserts his honesty of purpose. No democrat who heard him will fail to deposit a straight ballot."

Miss Millie McCurdy is visiting relatives at Indianapolis.

Mr. and Mrs. H. C. Schafer, of Evansville, are guests of the Wayne hotel.

Mr. Luke M. Fleming, of Warden Murdock's staff at the prison north, is in the city.

Postmaster Kaough to-day opened bids for the window trimmings of the government building.

Mary Gable, and not Mary Robabaugh, has sold to John T. Rodabaugh, lot No. 9, railroad addition.

Dr. Greenawalt reports an encouraging improvement in the condition of Mr. W. H. Brady, of Root & Co.

Mayor Muhler had four drunks before him this morning, and assessed the usual fine. Two paid and two went to jail.

The two children of Mr. Woehnker, of Fulton street, strayed away from home yesterday, but the police restored them.

Mr. J. H. Bass was a caller on the Pittsburg and Fort Wayne railroad officials while they were in the city yesterday.

The Indianapolis *Sentinel* says: "Deputy County Auditor Gorman and Deputy U. S. Marshal Wilkinson, of Fort Wayne, are in the city on official business."

Judge S. M. Hench was seized with a sinking chill in his office, last evening, and is confined to his room at the residence of Mrs. Fox, on East Wayne street.

The Catholic Library association met last night and transacted routine business. The election of officers was postponed until the second Thursday in November.

A meeting of business men is called for, at the Academy of Music, to-night to arrange for a proper decoration of the city on the occasion of Judge Thurman's visit.

Dr. J. W. Younge was at Indianapolis attending the annual meeting of the Tri-State veteran association. The doctor presided at the meeting and finds the affairs of the society in excellent shape.

The Cincinnati *Enquirer* yesterday announced Governor Hill, of New York, to speak in Fort Wayne to-night. This must be premature for the local committee has no notification of such a meeting.

Little Gertrude Fissel, daughter of Mr. Philip Fissel, of 61 Archer avenue, was injured by a street car on the Wells street bridge last evening. Her left hand was bruised and she was otherwise slightly hurt. Dr. McOscar attends to her.

The Tippecanoe club is highly pleased with its trip to Indianapolis. The members say they were royally entertained and were accorded the post of honor as escort to Mr. Blaine. The city band, of coure, was without a match in the line of march.

Every indication points that 50,000 people from abroad will be in Fort Wayne, next Wednesday, to hear Judge Thurman and other other distinguished speakers. This large crowd must be fed. The ladies' societies of the different churches, the Women's Relief corps and proprietors of hotels and restaurants are urgently requested by the committee to use their utmost efforts in this direction.

The *Daily News* makes a statement that the democrats, chagrined at Mr. S. M. Foster's prominence, propose to organize a counter demonstration next Monday evening to detract from his meeting at the Academy of Music. Nothing could be further from the truth than the assertion of the *News*. There is no occasion to envy Mr. Foster, but there is every reason to honor his manly course. The Hendricks club will have a flag presentation the evening of Mr. Foster's address, but it will occur at his meeting or before it. Out of a desire to hear him the democrats of the Fifth ward abandoned a proposed rally for next Monday evening.

The music lovers of this city, and their name is legion, will hail with pleasure the news of the return of the famous Conreid English Opera company, which appears at the Temple opera house next Wednesday evening. That this excellent organization will be be awarded an enthusiastic welcome may be taken as a foregone conclusion. The Conreid Opera company this season is almost an entirely new one, and it certainly is as brilliant as it is new. It is an exceedingly strong organization numerically, and the list of artists fairly sparkles with names famous in the musical world. "The Vice Admiral," Millocker's brilliant opera, will be given.

Every infidel or sceptic ought to have heard Evangelist Updike's sermon on the Divinity of Christ last evening. The large audience was held spell bound as prophecy after prophecy was unfolded and testimony after testimony from the greatest minds was presented in which Jesus of Nazareth was shown to be the Christ of God without a doubt. Every person present was convinced that the only reason why men did not confess Christ, as Mr. Updike said, either they are ignorant of the facts concerning him, or else their wicked and stubborn hearts choose to rebel against light and knowledge. Confessions are made at every meeting. The Christian people of this city will be held accountable if they do not encourage in every way this remarkable revival. Services at 7:30 each evening.

The Pennsylvania railroad inspection party only remained in the city about an hour yesterday. There were some seventy-five gentlemen in the company and they occupied two trains, the third train being exclusively a dining car and kitchen. Among the officials of prominence was Mr. E. B. Taylor, the general superintendent; Mr. Thomas Rodd, engineer of maintenance and the division superintendents and roadmasters of the Pennsylvania system. The object of the tour is simply to test the track, which they do by means of an indicator in the car. They have a system of premiums in vogue on the line, the prizes ranging from $100 to $25, and this money will be awarded to the section foremen and trackmen on the report of this inspection party. They went to Lima from here.

ECHOES OF THE RAIL.

Two Men Injured in the Pittsburg Shops and a Brace of Accidents on the Road.

Fred Vodde, a moulder of the Bass works, is on the sick list.

The new planer machine at the Bass works is now in operation.

The Nickel Plate is having a big passenger business to western points.

Fred Ropa, of the Bass works, has returned from a trip to Cincinnati.

The pay-days have commenced and will follow each other in rapid succession.

Mr. T. F. Hendry, the district passenger agent of the Santa Fe road, was in the city yesterday.

A number of the employes of the Bass works attended the wedding of William Eberhart last evening.

George Haverly, of the Pittsburg blacksmith shops, is the first lieutenant of the Eighth ward first voters' club.

The excursion trains which took the republican delegations to Indianapolis yesterday did not return until after 7 o'clock this morning.

John Deagan, of the Pittsburg blacksmith shops, was receiving congratulations yesterday over the arrival of a handsome girl baby at his home.

S. W. Snow, general passenger agent and G. W. Stevens, assistant general superintendent of the Wabash road, were in the city yesterday on their way to Toledo.

John Schuster, an employe of the Pittsburg car shops, had his leg badly injured yesterday, while at work, by a heavy car axle falling on it. He was taken home in a carriage.

At Richmond, Va., next week, an important convention of railway engineers and firemen, representing the Brotherhood, will be held. At that time it is expected that the federation of engineers, firemen, switchmen and brakemen will be completed.

John Slater, the enthusiastic republican employe of the Pittsburg blacksmith shops, has returned from Indianapolis, and the boys request us to state that the Blaine rally had such an effect on him that he did not report for duty this morning.

Wm. Brossard, an employe of the Pittsburg blacksmith shops, met with a severe accident yesterday afternoon, about 3 o'clock. While operating the big shears in his department the index finger of his right hand got caught in the machinery and was cut off just below the second joint. He was taken to his home, on Wefel street, where his injury was dressed.

The Pittsburg shops in this city have received the official notice from the headquarters of the company to commence work upon the new locomotives and cars, the proposed building of which was mentioned in THE SENTINEL several days ago. The company will employ a number of new men in the various departments in addition to those which have taken positions lately. The blacksmith shops will employ thirty new men.

TWO FATAL ACCIDENTS.

By reason of a misplaced switch on one of the side tracks in the yards of the Pennsylvania road at Valparaiso Wednesday, a freight engine was run into the round house and through the wall, breaking out a large section of the brick work. While a force of men were engaged in clearing the wreck part of the roof fell in, and Chas Myers was almost entirely buried in the debris. After thirty minutes he was dug out alive, but so badly injured that he can not recover.

Yesterday while three men were crossing the high Fort Wayne trestle over Crow's run, near Beaver, Ohio, one of them, named Louis Stevens, fell through the timbers to the bed of the creek, fifty feet below, and was instantly killed. Stevens was a stranger in the vicinity. From letters found on his person it was ascertained he had friends living in Philadelphia.

The sale of seats for the Conreid opera company opens Monday morning.

As a horse and cattle lotion, Salvation Oil has proven itself an infallible remedy, it has received the hearty indorsements of many old and well known horsemen. Prices 25 cents a bottle.

The Pennsylvania company has completed a handsome new passenger engine. It was constructed especially for the Valpo-Chicago accomodation train, and designed to be the swiftest and sprightliest runner on the Pennsylvania system. It is built after the very latest pattern and has all the modern improvements. Engineer Charles Gogan and Fireman Frank Cowdrey are as proud and delighted over their new machine as they could possibly be if they were to "hit" the Louisiana lottery for $15,000 each. The new machine has been christened "Gogan's pet."

Pleasant Testimonials From His Old Home.

The Palestine, (Ohio,) *Reveille* pays this compliment to Dr. Younge: "We had the pleasure of being introduced to Dr. J. W. Younge, of Fort Wayne, Indiana. The doctor is quite a polished and intelligent gentleman, and we were pleased to meet him. He has a government claim that he is looking after, and from an affidavit shown us, the claim is legitimate, and he must succeed in the matter. It involves some eighteen hundred dollars. The doctor has a lucrative practice, and is highly spoken of as a skillful physician." Locally, the *Reveille* concludes: "Dr. John W. Younge, who was born and raised here, passed through town last week, on his way to Washington, to report to the war department to be mustered out of the army. The doctor deserted from the hospital in 1863, he having been badly wounded at the battle of Malvern Hills, and went west and joined the army at Vicksburg. At the close of the war he was arrested and tried for desertion, imprisoned and pardoned, but failed to get a discharge, either honorable or dishonorable. He has at last succeeded in getting the record straightened through the influence of Capt. J. B. White, member of congress. The doctor went to Mexico in 1866 and became connected with the Mexican army and had the rank of colonel. He was also identified with the insurrectionary army of Cuba under the command of Col. Thomas L. Jordan. Col. Hugh Laughlin and the doctor enlisted in the same company for the three months service and also the three years service."
